NOTE BY THE TECHNICAL SECRETARIAT

CALL FOR NOMINATIONS TO THE SCIENTIFIC ADVISORY BOARD

1. The Technical Secretariat (hereinafter “the Secretariat”) wishes to inform States Parties that two members of the Scientific Advisory Board (SAB) will end their term of office on the Board in 2022. These Board members are listed in Annex 1 to this Note. Additionally, seven members will be completing their first terms on the SAB in 2022.
2. In the light of the above, the Secretariat invites States Parties to nominate experts for consideration for selection to the SAB. In its continued quest for gender equality, the Secretariat requests that, should any given State Party wish to put forward two nominations, one of the two nominated candidates be female. The final appointments will be made by the Director-General after an internal selection process. The terms of reference (TOR) of the SAB, which are annexed to a decision of the Conference of the States Parties at its Second Session (C-II/DEC.10/Rev.1, dated 2 December 2004), stipulate in paragraph 6 that “[t]he term of office of members of the Board shall be three years. A Board member may serve for two consecutive terms”.
3. With reference to paragraph 4 of the aforementioned TOR, nominees to be proposed should be eminent persons who serve in research institutions, universities, scientific industries, and/or defence and military organisations, who will be selected on the basis of their expertise in one or more of the particular scientific fields relevant to the implementation of the Chemical Weapons Convention (hereinafter “the Convention”). Paragraph 4 of the TOR further stipulates that “[p]reference shall be given to persons who are knowledgeable about the relevant scientific and technological developments, and who are familiar with the implementation of the Convention. Efforts shall be made to maintain a balance between the areas of research, development and applications”. Nominees should be proposed on the basis of their qualifications and experience, with States Parties taking into account their publications, scientific, academic or professional activities, distinctions, and international and scientific advisory experience.
4. When selecting candidates for nomination, States Parties are encouraged to take into consideration that transdisciplinary (“convergent”) scientific practices are a driver for innovation and rapid technological evolution. Candidates whose areas of expertise reach across traditional disciplinary boundaries are particularly well suited to serve on the Board.

5. In the light of the expertise held by those leaving the SAB in 2022, the considerations mentioned in paragraphs 3 and 4 above, and the need for technical expert advice on issues that have both immediate and long-term implications for the implementation of the Convention, States Parties may wish, this year in particular, to nominate candidates with expertise in biotoxins, automated and/or artificial intelligence, molecular design and synthesis, pharmaceutical-based compounds, medical countermeasures, the fate of toxic chemicals, forensic science,¹ additive manufacturing, risk analysis, omics technologies, and big data/informatics and analytics.² The Board's report to the Fourth Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention (RC-4/DG.1, dated 30 April 2018) serves as a resource for the breadth of issues the SAB has recently considered.
6. Nominees should be ready to make substantive contributions at SAB meetings, during the intersessional periods, and at other relevant science and technology events. All nominees are requested to submit a written statement describing how they intend to have a substantial impact on the work of the SAB and the OPCW.
7. The Secretariat requests States Parties to submit nominations via email to the Secretary to the SAB (peter.hotchkiss@opcw.org) using the attached nomination form (Annex 2), **by 30 August 2022**. The form should be accompanied by the curriculum vitae of the nominee and by the written statement (up to 500 words) mentioned in paragraph 6 above.
