Belgian non – profit organisation International team of historians Independent * Non-political * Non-religious

As various forms of conflict, war and terrorism specifically, have become more prominent topics in recent years, it is important that we pay attention to how people have viewed and dealt with events like the First World War. Understanding the human aspect of conflicts is important as it not only gives one an understanding of the real consequences of certain actions; it also helps us to understand why things are the way they are
