ANNEXES

ANNEX 1	STATUS OF PARTICIPATION IN THE CHEMICAL WEAPONS CONVENTION AS AT 31 DECEMBER 2010	33
ANNEX 2	CHEMICAL WEAPONS DESTRUCTION FACILITIES OPERATIONAL OR UNDER CONSTRUCTION IN 2010	42
ANNEX 3	CHEMICAL WEAPONS DECLARED AND DESTROYED AS AT 31 DECEMBER 2010	43
ANNEX 4	NUMBER OF STATES PARTIES THAT HAD DECLARED RIOT CONTROL AGENTS, BY TYPE OF AGENT, AS AT 31 DECEMBER 2010	44
ANNEX 5	DECLARED AND INSPECTABLE SCHEDULE 2 FACILITIES AS AT 31 DECEMBER 2010	45
ANNEX 6	DECLARED AND INSPECTABLE SCHEDULE 3 FACILITIES AS AT 31 DECEMBER 2010	46
ANNEX 7	DECLARED AND INSPECTABLE DOC/PSF FACILITIES AS AT 31 DECEMBER 2010	47
ANNEX 8	LIST OF DESIGNATED LABORATORIES AS AT 31 DECEMBER 2010	49
ANNEX 9	DECLARATIONS OF NATIONAL PROTECTION PROGRAMMES, BY YEAR, IN ACCORDANCE WITH ARTICLE X, PARAGRAPH 4, OF THE CHEMICAL WEAPONS CONVENTION, AS AT 31 DECEMBER 2010	50
ANNEX 10	ASSISTANCE MEASURES ADOPTED BY STATES PARTIES PURSUANT TO PARAGRAPH 7 OF ARTICLE X OF THE CHEMICAL WEAPONS CONVENTION	56
ANNEX 11	CONTRIBUTIONS TO THE VOLUNTARY FUND FOR ASSISTANCE AS AT 31 DECEMBER 2010	59
ANNEX 12	FINANCIAL SITUATION OF THE OPCW	61
ANNEX 13	INTERNATIONAL AGREEMENTS AND LEGAL INSTRUMENTS REGISTERED BY THE TECHNICAL SECRETARIAT FROM 1 JANUARY 2010 TO 31 DECEMBER 2010	64

INTRODUCTION AND OVERVIEW

1. On 24 July, Ambassador Rogelio Pfrter of Argentina completed his second term of office as Director-General. On 25 July, Ambassador Ahmet Üzümcü of Turkey took up office as the Director-General of the Technical Secretariat (hereinafter “the Secretariat”) of the Organisation for the Prohibition of Chemical Weapons (OPCW), becoming the third person to hold that office since the Organisation was established in 1997.
2. In 2010, the Libyan Arab Jamahiriya began the destruction of its Category 1 chemical weapons, following initial technical delays. It also completed the conversion of its two remaining chemical weapons production facilities (CWPFs) for the production of pharmaceuticals. The first chemical weapons destruction facility (CWDF) for chemical weapons abandoned by Japan on the territory of China—a mobile CWDF—became operational in 2010. During the reporting period, the OPCW verified the destruction of approximately 4,900 metric tonnes of chemical weapons in three States Parties (the Libyan Arab Jamahiriya, the Russian Federation, and the United States of America), bringing the total amount destroyed to approximately 45,000 metric tonnes, or 64% of the amount declared by the six possessor States Parties since entry into force of the Chemical Weapons Convention (hereinafter “the Convention”).
3. At the end of the year, the Libyan Arab Jamahiriya had destroyed 22%, the Russian Federation 49%, and the United States of America 83% of their declared stocks of Category 1 chemical weapons. Iraq had yet to start the destruction of its declared chemical weapons. Seventy CWPFs had been declared to the OPCW. For 11 of the 13 States Parties having declared CWPFs, the OPCW had certified that all of their declared CWPFs had been either destroyed or converted. Four facilities remained to be certified as destroyed and two facilities were still to be certified as converted for purposes not prohibited under the Convention.
4. The OPCW carried out inspections at 208 chemical-industry facilities, pursuant to Article VI of the Convention, in order to verify State Party declarations. Sequential inspections and sampling and analysis continued to play an important role in strengthening the effectiveness and efficiency of the verification regime, as did the expanded use of the OPCW electronic declarations tool for National Authorities (EDNA). Significant efforts were undertaken to improve the timeliness of declarations, so that the verification work of the OPCW may be performed on the basis of updated information from States Parties.
5. The third OPCW field exercise on assistance and protection (ASSISTEX 3) was hosted by the Government of Tunisia in October. The exercise was attended by some 245 participants from 11 Member States. Combined teams from four subregions also took part in the exercise (a total of 43 personnel from 24 other Member States) as well as various staff members from the Secretariat.
6. As at the end of 2010, there were 188 States Parties (see Annex 1). There remained seven States not Party to the Convention.
7. A special workshop on Article XI of the Convention was organised in November 2010 at the OPCW Headquarters in The Hague. The workshop was

attended by more than 130 participants from 66 States Parties, including representatives from governments, academia, industry associations, international organisations and non-governmental organisations (NGOs). The aim of the workshop was to foster the exchange of ideas among States Parties on Article XI, a key provision of the Convention covering the promotion of international cooperation in the peaceful use of chemistry.

8. A table-top exercise, the first of its kind, was organised by the OPCW in Warsaw, Poland, in November 2010. The exercise was attended by 150 participants, including over 70 international representatives from 27 countries, 16 international and regional organisations, and relevant NGOs.
9. In 2010, the Secretariat continued to implement projects in the framework of the Contribution Agreement between the Secretariat and the European Commission (CFSP/2009/18/OPCW IV), aimed at further strengthening the multilateral disarmament and non-proliferation measures of the Convention.
10. In 2010, the Secretariat continued to advance the preparations for the adoption of the International Public Sector Accounting Standards (IPSAS), with the production of pro forma IPSAS-compliant Financial Statements for the period from 1 January to 30 June 2010, as a first trial run. The Director-General also approved the introduction of results-based management (RBM) principles in the OPCW.

1. VERIFICATION ACTIVITIES

- 1.1 Three States Parties submitted their initial declarations pursuant to the Convention in 2010¹. By 31 December 2010, 180 of the 188 States Parties had submitted initial declarations to the OPCW. Six States Parties (A State Party², Albania, India, the Libyan Arab Jamahiriya, the Russian Federation, and the United States of America) had between them declared as chemical weapons 71,194.804 metric tonnes of chemical-warfare agents and precursors, as well as 8,679,821 munitions and containers³. In connection with the chemical-industry verification regime, there were a total of 5,443 declared facilities in 80 States Parties at the end of the review period.

CHEMICAL DEMILITARISATION

- 1.2 In 2010, chemical weapons were destroyed in the Libyan Arab Jamahiriya, the Russian Federation, and the United States of America. All three States Parties had been granted extensions by the Conference of the States Parties (hereinafter “the Conference”) beyond their original obligation to destroy all Category 1 chemical weapons⁴ within 10 years of entry into force of the Convention. Extensions had also been granted by the Executive Council (hereinafter “the Council”) to Italy for the destruction of old chemical weapons, and to China and Japan with regard to the chemical weapons abandoned by Japan on the territory of China.

Chemical weapons destruction

- 1.3 Eleven CWDFs were involved in the destruction of chemical weapons during the reporting period⁵: one in the Libyan Arab Jamahiriya, four in the Russian Federation, and six in the United States of America. This includes the Pochep CWDF in the Russian Federation, which began operations in 2010. Three additional CWDFs were under construction and new units for the destruction of additional types of chemical weapons were being constructed at four operational CWDFs (see Annex 2). At one CWDF—the Pine Bluff Chemical Agent Disposal Facility in the United States of America—destruction operations were completed in 2010. The Secretariat confirmed that destruction operations had been duly completed, after which the final inspection report was signed and systematic verification activities at the facility ceased.
- 1.4 Maintaining a continuous presence of inspectors, the OPCW verified the destruction of 4,889.236 metric tonnes of chemical weapons in 2010.

¹ Barbados, the Dominican Republic, and Niue.

² As the State Party in question has requested that its name be regarded as highly protected information, for the purposes of this report it is hereinafter referred to as “A State Party”.

³ Figures for quantities of chemical weapons declared and destroyed do not include chemical weapons declared by the seventh possessor State Party, Iraq.

⁴ Category 1 comprises chemical weapons based on Schedule 1 chemicals (see footnote 14), including their munitions and containers; for Category 2 chemical weapons (chemical weapons based on other chemicals, counting precursors, and including their munitions and containers) and Category 3 chemical weapons (unfilled munitions and containers), the deadline for destruction is five years from entry into force of the Convention.

⁵ Not counting old and abandoned chemical weapons.

- 1.5 Between the entry into force of the Convention and 31 December 2010, the OPCW verified the destruction of 45,075.170 metric tonnes of chemical weapons⁶. The destroyed Category 1 chemical weapons amounted to 44,155.239 metric tonnes, consisting of 42,935.277 metric tonnes of unitary chemical weapons (toxic chemical-warfare agents, such as VX, sarin, sulfur mustard, and lewisite) and 1,219.962 metric tonnes of binary chemical weapons (chemicals that become toxic when mixed together). This is summarised in Annex 3.
- 1.6 There were four States Parties with declared chemical weapons at the end of the review period—Iraq, the Libyan Arab Jamahiriya, the Russian Federation, and the United States of America. The following paragraphs provide an overview of progress in the destruction of chemical weapons by each of the possessor States Parties.
- 1.7 Iraq: Iraq's initial declaration, received in March 2009, refers to chemical weapons stored in two bunkers. According to the declaration, the listing of chemical weapons is based on available information from the United Nations Special Commission, as it was not possible for Iraq to conduct a detailed on-site inventory due to the hazardous conditions within the bunkers. Consultations between Iraq and the OPCW in The Hague continued throughout 2010, to clarify details of the declaration and with a view to developing a general destruction plan. It was not possible to initiate inspection activities in 2010 and, by the end of the year, there was no detailed plan for Iraqi chemical weapons destruction. Deadlines for the destruction of chemical weapons in Iraq had yet to be established.
- 1.8 Libyan Arab Jamahiriya: The Conference at its Fifteenth Session approved a request by the Libyan Arab Jamahiriya to extend the intermediate deadlines for destroying 20% and 45% of its Category 1 chemical weapons⁷. This State Party remained committed to the existing deadlines for 1% destruction by 1 November 2010 and for completion of destruction by 15 May 2011⁸. The Libyan Arab Jamahiriya began destroying Category 1 chemical weapons in 2010, meeting its deadlines for 1% and 20% destruction and reaching 22%—or 5.527 metric tonnes—by 31 December 2010. By that date, the Libyan Arab Jamahiriya had also destroyed 40%—or 555.706 metric tonnes—of its declared Category 2 chemical weapons, including 4.4 metric tonnes of phosphorous trichloride⁹.
- 1.9 Russian Federation: In 2010, the OPCW verified the destruction of 1,244.515 metric tonnes of Category 1 chemical weapons. At the end of the review period, the OPCW had verified the destruction of 19,565.016 metric tonnes of Category 1 chemical weapons, or 49% of the declared stockpile. The Conference at its Eleventh Session established 29 April 2012 as the final extended destruction deadline for Category 1 chemical weapons in the Russian Federation¹⁰.

⁶ In addition, all 416,313 items of Category 3 chemical weapons were verified as destroyed before the Convention's deadline of 29 April 2002.

⁷ C-15/DEC.3, dated 30 November 2010.

⁸ C-14/DEC.3, dated 2 December 2009.

⁹ With regard to Category 2 chemical weapons in the Libyan Arab Jamahiriya, the extended deadline set by the Conference is 31 December 2011 (C-11/DEC.15, dated 8 December 2006).

¹⁰ C-11/DEC.18, dated 8 December 2006.

- 1.10 United States of America: In 2010, the OPCW verified the destruction of 3,660.569 metric tonnes of Category 1 chemical weapons. At the end of the review period, the OPCW had verified the destruction of 22,916.605 metric tonnes of chemical weapons, or 83% of the declared stockpile. The Conference at its Eleventh Session established 29 April 2012 as the final extended destruction deadline for Category 1 chemical weapons in the United States of America¹¹.

Chemical weapons storage facilities

- 1.11 Nineteen OPCW inspections were conducted at 13 chemical weapons storage facilities (CWSFs) in three States Parties in 2010. At one CWSF—Aberdeen Proving Ground E3832 (Chemical Transfer Facility) in the United States of America—a final inspection was carried out to verify that the conditions had been met for systematic verification of the CWSF to be discontinued. At the end of the review period, 13 declared CWSFs in four States Parties still contained chemical weapons.

Chemical weapons production facilities

- 1.12 In 2010, the Secretariat certified conversion of the last two CWPFs declared by the Libyan Arab Jamahiriya, which had been converted to produce pharmaceuticals. Ten CWPF inspections were carried out at nine facilities in three States Parties, including at six former CWPFs that had been certified as converted prior to 2010 but which remained subject to systematic verification¹². By 31 December 2010, 43 of the 70 declared CWPFs had been destroyed, and 21 converted for purposes not prohibited by the Convention. Of the remaining six (five in Iraq and one in the Russian Federation), two were due to be converted and four to be destroyed.
- 1.13 The Convention provides that all States Parties shall reduce residual production capacity at CWPFs to zero by 29 April 2007¹³. At the end of the reporting period, the required level had been reached in 10 of the 11 States Parties having declared CWPFs at the time of the entry into force of the Convention. The deadlines for destruction and conversion of CWPFs in Iraq had yet to be established.

Old and abandoned chemical weapons

- 1.14 In 2010, the OPCW carried out nine inspections related to old chemical weapons (OCWs) in nine States Parties. Ten States Parties reported new discoveries to the OPCW during the review period.
- 1.15 As for abandoned chemical weapons (ACWs), the Secretariat conducted six inspections regarding chemical weapons abandoned by Japan on the territory of China, where recovery and excavation activities continued throughout 2010.
- 1.16 The first CWDF for chemical weapons abandoned by Japan on the territory of China became operational in October 2010. It is a mobile destruction facility, which will be

¹¹ C-11/DEC.17, dated 8 December 2006.

¹² Consultations are ongoing under the auspices of the Council regarding the nature of continued verification measures upon completion of 10 years of systematic verification following conversion.

¹³ See subparagraph 30(a) of Part V of the Verification Annex to the Convention (hereinafter “the Verification Annex”).

deployed, initially, in Nanjing City, Jiangsu Province, China. According to the 90-day reports submitted by both China and Japan, 9,229 chemical weapons were destroyed using the mobile destruction facility in 2010. Preparations were under way, at the end of the year, for the introduction of additional destruction facilities.

- 1.17 Between entry into force of the Convention and 31 December 2010, 14 States Parties had declared OCWs, while three States Parties had reported ACWs on their territories. One State Party—Japan—had reported ACWs on the territory of another State Party. At the end of the review period, the number of old and abandoned chemical weapons reported to the OPCW as not yet destroyed comprised approximately 19,000 OCWs produced before 1925, 21,000 OCWs produced between 1925 and 1946, and 47,000 ACWs.

Riot control agents

- 1.18 At the end of the review period, 130 States Parties had declared possession of riot control agents (mainly tear gases). Annex 4 provides information on such declarations received by 31 December 2010.

INDUSTRY VERIFICATION

- 1.19 States Parties to the Convention provide declarations related to the production, import/export, and in some cases processing and consumption, of chemicals that are listed in the three Schedules of chemicals contained in the Convention's Annex on Chemicals¹⁴—as well as other chemical production facilities (OCPFs) producing discrete organic chemicals—for purposes not prohibited by the Convention¹⁵. Table 1 provides information about such chemical-industry declarations received by the OPCW by 31 December 2010. Annexes 5, 6, and 7 contain data, listed by State Party, on declared and inspectable Schedule 2 and Schedule 3 facilities and OCPFs.

¹⁴ Schedule 1 contains chemicals known to have been developed as chemical weapons or precursors, with no or only limited non-prohibited use; Schedule 2 contains known precursors and some toxic substances, which are not produced in large commercial quantities for non-prohibited use; and Schedule 3 contains chemicals known to have been developed as chemical weapons or precursors, which may be produced in large commercial quantities for non-prohibited use.

¹⁵ For complete information on the verification regime and its definitions see the Convention.

TABLE 1: DECLARED FACILITIES BY TYPE, AS AT 31 DECEMBER 2010

Type of Facility	Declared Facilities	Facilities Subject to Inspection ¹⁶	States Parties Having Reported Declarable Facilities ¹⁷	States Parties With Facilities Subject to Inspection ¹⁶
Schedule 1	27	27	22	22
Schedule 2	467	170	38	24
Schedule 3	489	438	36	33
OCPF	4,460	4,275	80	79
Total	5,443	4,910	80¹⁸	79¹⁹

- 1.20 As can be seen in Table 2 below, the Secretariat carried out 208 Article VI inspections in 2010. This comprised 11 Schedule 1 facilities (41% of the number of inspectable facilities), 42 Schedule 2 plant sites (25%), 30 Schedule 3 plant sites (7%), and 125 OCPFs (3%).

TABLE 2: ARTICLE VI INSPECTIONS

Number of Article VI Inspections by Year									
2001	2002	2003	2004	2005	2006	2007	2008	2009	2010
75	85	132	150	162	180	200	200	208	208

- 1.21 The Council adopted a decision in 2007 (EC-51/DEC.1, dated 27 November 2007), requesting, inter alia, that all concerned States Parties ensure that their Article VI declarations are submitted on time, and that the Secretariat continue to inform States Parties of their reporting requirement. In 2010, 60% of States Parties submitted their required annual declarations on past activities (ADPAs) for 2009 on time, as compared with 65% in the preceding year.
- 1.22 The Secretariat continued to seek ways to optimise the use of its human and material resources in the conduct of inspections. One way of saving resources is to inspect more than one facility during a mission. In 2010, such sequential inspections took place during 40 inspection missions (see Table 3 below)—covering 80 individual inspections—with resultant savings in inspection costs. Further progress in this regard could be achieved if additional States Parties were to agree to the use of sequential inspections.

TABLE 3: SEQUENTIAL INSPECTIONS

Number of Sequential Inspections by Year							
2003	2004	2005	2006	2007	2008	2009	2010
8	16	23	26	26	37	42	40

¹⁶ Above the threshold for verification through on-site inspections.

¹⁷ Includes annual declarations on anticipated activities and ADPAs.

¹⁸ Number of States Parties having declared facilities under Article VI.

¹⁹ Number of States Parties having declared facilities subject to inspection under Article VI.

Sampling and analysis

- 1.23 In 2010, the OPCW continued to apply on-site sampling-and-analysis inspections on a routine basis²⁰. At the end of 2010, 38 such missions had been conducted in 20 of the 24 States Parties with declared Schedule 2 facilities that are subject to inspection.

Electronic declarations

- 1.24 Thirty States Parties used the option to submit their ADPAs for the year 2009 in electronic format. These electronic declarations covered approximately 88% of all the facilities declared in 2010 pursuant to Article VI of the Convention.
- 1.25 A total of 68 representatives from 58 States Parties were given training on the use of EDNA during regional workshops in Hungary and the United Republic of Tanzania, and at training sessions offered in the margins of the Fifteenth Session of the Conference. Further EDNA-related training will be made available to interested States Parties in 2011.
- 1.26 Twenty-six representatives from 18 States Parties attended the second user-group forum for EDNA in July 2010. The forum contributed to the maintenance of a closer link with the user community and provided an interactive platform for discussions on further improvements in this software.

Transfers of scheduled chemicals

- 1.27 States Parties report to the OPCW any export or import of scheduled chemicals²¹, including exports of Schedule 3 chemicals to States not Party to the Convention. Advance notification must be given by both parties to a transfer of Schedule 1 chemicals between States Parties.
- 1.28 In 2010, the Secretariat received 52 notifications relating to 36 transfers of Schedule 1 chemicals, involving 15 States Parties. Of these 15, eight were listed as sending and 12 as receiving States Parties (five States Parties were listed as both sending and receiving States Parties).
- 1.29 ADPAs received in 2010 indicated that 50 States Parties had transferred an approximate total of 3,500 metric tonnes of Schedule 2 chemicals in 2009. One State Party reported the export, in 2009, of approximately 900 kg of Schedule 2 chemicals to a State not Party. The State Party concerned, which had previously reported a similar export in 2008 from the same company, notified the Secretariat of the remedial steps taken by its Government, including criminal prosecution of the company involved²².
- 1.30 ADPAs regarding Schedule 3 chemicals indicated that 123 States Parties had transferred approximately 275,000 metric tonnes of such chemicals in 2009. Nine States Parties exported four Schedule 3 chemicals to two States not Party, with the

²⁰ See paragraph 28 of Part VII of the Verification Annex.

²¹ Subject to certain minimum quantities.

²² Transfers of Schedule 1 or 2 chemicals to or from States not Party to the Convention are proscribed for States Parties to the Convention.

chemical thionyl chloride accounting for 47% of the 2,431 metric tonnes of Schedule 3 chemicals declared to have been exported to States not Party in 2009.

FACILITATIONS

- 1.31 The Convention specifies a number of issues on which the OPCW is to decide after the entry into force of the Convention, and additional outstanding issues have been identified by the policy-making organs in subsequent years. Such issues are generally handled through informal consultations coordinated by a facilitator from one of the State Party delegations, and with the support of the Secretariat.
- 1.32 Several verification-related facilitations were pursued in 2010. In the Chemical Weapons Cluster, consultations continued in 2010 regarding the nature of continued verification measures upon completion of ten years of systematic verification following the conversion of a CWPF²³. The Industry Cluster suspended consideration of the issue of enhancement of OCPF declarations, and began consultations on OCPF site-selection methodology and on captive use of Schedule 1 chemicals.

INSPECTION ACTIVITIES

- 1.33 Forty-eight percent of the 398 inspections/rotations that the OPCW conducted at 49 sites in 40 States Parties in 2010 were chemical weapons-related. The remaining 52% concerned chemical–industry inspections under Article VI. In terms of inspector days²⁴, the bulk of the inspection effort concerned inspections or rotations at operating CWDFs. Seventy-five percent of the 18,512 inspector days in 2010 concerned inspections/rotations at CWDFs, which are typically of longer duration than other types of inspection. A summary of the inspections carried out in 2010 is provided in Table 4.

²³ See paragraph 85 of Part V the Verification Annex.

TABLE 4: INSPECTIONS COMPLETED IN 2010

	Number of Inspections/Rotations	Number of Facilities or Sites Inspected	Number of Inspector Days²⁴
Chemical weapons-related inspections			
CWDF	144	12	13,932
CWSF	19	13	635
CWPF	10	9	159
OCW	9	9	135
ACW	7	6	184
DHCW ²⁵	1	N/A	175
Subtotal	190	49	15,220
Article VI inspections (chemical industry)			
Schedule 1	11	11	190
Schedule 2	42	42	1,032
Schedule 3	30	30	467
OCPF	125	125	1,603
Subtotal	208	208	3,292
Total	398	257	18,512

Challenge inspections

- 1.34 As in previous years, no challenge inspections were requested in 2010. However, the Secretariat continued to maintain a high standard of readiness to conduct challenge inspections in accordance with the provisions of the Convention, as requested by the States Parties. During the year under review, Thailand offered to host a challenge inspection exercise scheduled for 2011.

Investigations of alleged use

- 1.35 As in previous years, the Secretariat received no requests from States Parties for an investigation of alleged use (IAU) during the year in review.
- 1.36 As mentioned in paragraph 5 above, the third OPCW field exercise on assistance and protection (ASSISTEX 3) was held in Tunisia in October 2010. Some 32 staff members were deployed to conduct an IAU, as part of the exercise scenario, and contribute to the OPCW assistance coordination and assessment team (ACAT). Additional staff from the Inspectorate Division participated as exercise control and directing staff. Moreover, an independent evaluation of ASSISTEX 3 was conducted by staff from the Inspectorate and Verification Divisions, as well as by external experts, acting in their personal capacities.

²⁴ The number of days spent on an inspection multiplied by the number of inspectors assigned to it.
²⁵ Destruction of hazardous chemical weapons.

TECHNICAL SUPPORT FOR VERIFICATION ACTIVITIES AND TRAINING**OPCW proficiency tests**

- 1.37 Each year, the OPCW carries out proficiency tests for institutions that may wish to participate in the OPCW network of analytical laboratories. The year under review saw the completion of the Twenty-Sixth, the holding of the Twenty-Seventh, and the start of the Twenty-Eighth OPCW Proficiency Tests. At the end of the reporting period, there were 18 designated laboratories from 15 Member States, two of which had had their designation temporarily suspended. Annex 8 shows the status of each designated laboratory as at 31 December 2010.
- 1.38 During the ASSISTEX 3 exercise, the OPCW Laboratory practised the shipment of authentic samples to two designated laboratories.

OPCW Central Analytical Database

- 1.39 Table 5 reflects the number of chemicals covered in the OPCW Central Analytical Database (OCAD) for each technique for the last four years²⁶. It should be noted that only the gas chromatography (retention index) (GC(RI)) and mass spectrometry (MS) data are currently used in on-site analysis.

TABLE 5: NUMBER OF CHEMICAL SPECIES IN THE OCAD

Status at the End of	2007	2008	2009	2010
IR ²⁷	671	687	698	698
GC(RI)	2,655	2,747	2,894	3,018
NMR ²⁸	298	298	298	298
MS	2,846	3,049	3,214	3,321

- 1.40 The evaluation of the first confidence-building exercise for biomedical sample analysis was completed in 2010. The exercise report concluded that the exercise successfully demonstrated a broader capability to analyse urine samples for metabolites of chemical-warfare agents than had previously been shown. A workshop was held during the year to discuss the findings. A second confidence-building exercise for biomedical sample analysis will be conducted in 2011.

Inspector training

- 1.41 Thirty-two professionals in Group K from 22 States Parties joined the OPCW Inspectorate in 2010. Thirty-one of the new inspectors successfully completed the training course, with one inspector scheduled to complete initial training with Group L in early 2011. The training programme included lectures by chemical demilitarisation and industry verification experts; case studies and table-top exercises to ensure familiarity with on-site inspection procedures; and field training in the use

²⁶ Unlike the OCAD tables included in annual reports before 2009, the numbers given in Table 5 represent the number of distinct chemicals rather than the number of items of data in the database.

²⁷ Infrared.

²⁸ Nuclear-magnetic resonance.

of approved OPCW inspection equipment and procedures. The trainees were able to observe a wide range of OCWs and work on procedures for their identification and on usability criteria. In combination with the expertise of existing inspectors, the OPCW Laboratory trained five new analytical-chemist inspectors from Group K in OPCW sampling-and-analysis procedures and in chemical weapons analysis.

- 1.42 Field training was designed to familiarise the new inspectors with personal protection, detection, decontamination, and safe working procedures in toxic environments, and involved training with live chemical-warfare agents. One of the core elements of the training of new inspectors was a mock inspection at two declared facilities, with the support of the States Parties involved.
- 1.43 The initial inspector training for Group K was supported by Belgium, the Czech Republic, Italy, the Netherlands, Serbia, Switzerland, and the United States of America.
- 1.44 During the year, ongoing training for existing inspectors delivered more than 5000 training days to 150 inspectors, in addition to the new training programme for Group L. Ongoing training was provided to all speciality groups, involving the delivery of more than 80 training courses throughout the year.

2. INTERNATIONAL COOPERATION, ASSISTANCE, AND PROTECTION, AND IMPLEMENTATION SUPPORT

INTERNATIONAL COOPERATION

- 2.1 The international-cooperation programmes implemented by the OPCW are based on the provisions of Article XI of the Convention, which relate to the economic and technological development of States Parties. The programmes aim at building skills and capabilities in areas relating to the peaceful application of chemistry, with the focus on integrated chemicals management, chemical knowledge promotion and exchange, industry outreach, and enhancing analytical capabilities in Member States whose economies are developing or in transition.

Article XI workshop

- 2.2 A workshop on Article XI of the Convention was held on 24 and 25 November 2010 at the OPCW Headquarters in The Hague. The workshop was organised to facilitate the exchange of ideas among States Parties and relevant stakeholders from States Parties, including chemical-industry associations, NGOs, and regional and international institutions, which could assist, as appropriate, the policy-making organs of the OPCW to explore, identify, and develop concrete measures on the full implementation of Article XI. The workshop was attended by 140 participants from 64 Member States from various geographical regions, including eight resource persons from seven Member States. Voluntary contributions from Algeria and the Netherlands were also utilised to support the workshop.

Associate Programme

- 2.3 During the ten-week Associate Programme in 2010, 27 technically qualified individuals from 27 Member States were provided training in various aspects relating to the Convention, as well as in modern chemical-industry practices and chemical safety. National Authorities, academic and specialised institutions, chemical-industry associations, and companies from several industrialised Member States, including Belgium, Denmark, Germany, India, Italy, Japan, the Netherlands, Poland, Qatar, and Spain assisted in organising various components of the programme. A voluntary financial contribution was received from the United Kingdom of Great Britain and Northern Ireland. Japan contributed in kind towards the programme.

Conference-Support Programme

- 2.4 In 2010, 23 events in 23 different Member States were supported, with a view to facilitating the exchange of scientific and technical information in areas relating to the peaceful use of chemistry. The events covered a variety of subjects, ranging from environmental chemistry, nanoscience for solar energy conversion, chemistry for sustainable development, electrochemistry, creating green solutions, marine natural products, chemical and biological medical treatment, pesticide chemistry, and biocatalysis and biotransformation to research in chemistry education, risk assessment, and the contribution of African women scientists.

Analytical-skills-development courses

- 2.5 In 2010, five international courses were organised to provide training in the analysis of chemicals related to the Convention. A total of 46 qualified analytical chemists from 33 Member States were trained through these courses. Three courses were arranged with the Finnish Institute for Verification of the Chemical Weapons Convention (VERIFIN) in Helsinki, Finland. A course supported by South Africa and Finland was designed for African Member States (14 participants) and held at the Protechnik Laboratories in Pretoria, South Africa. In addition, supported by a voluntary contribution from Spain, a basic course on the analysis of chemicals related to the Convention for Spanish-speaking professionals from laboratories in the Group of Latin American and Caribbean States (GRULAC) region was held at the Laboratorio de Verificación del Instituto Tecnológico La Marañosa (LAVEMA), in Madrid, Spain. The course accommodated 12 participants from 10 States Parties. Furthermore, two training courses at the national level on sample preparation for trace analysis of compounds related to the Convention and the reporting of the results using MS were organised in Malaysia by the Department of Chemistry of the Ministry of Science, Technology and Innovation, with active support from the National Authority of Malaysia, and by the Ministry of Health in Peru at the Environmental Control Laboratory (DIGESA). Each training course accommodated 10 local analytical chemists.

Chemical-safety management

- 2.6 The chemical-safety management/chemical-industry outreach initiative, launched in 2009, continued in 2010 with the organisation of a two-day seminar at the OPCW Headquarters. The seminar was supported by the European Union Council Decision 2009/569/CFSP of 27 July 2009 on support for OPCW activities in the framework of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction, and was attended by 33 participants from 20 Member States. The seminar provided an opportunity for review and discussion on the theoretical foundations underpinning safety management and safety-management practices, and promoted a culture of chemical safety.

Internship-Support Programme

- 2.7 The programme supported 15 internships in 2010. Two were supported through a voluntary contribution from the Government of China, and one through a voluntary contribution from the Government of the Netherlands.

Programme for Support of Research Projects

- 2.8 Twenty-seven new projects (including 24 jointly funded by the International Foundation for Science and three directly managed by the OPCW) from 23 Member States were supported in 2010.

Laboratory-Assistance Programme

- 2.9 Under this programme, technical assistance was extended to two laboratories in Jordan. In Kenya, the OPCW supported five out of a total of 16 participants from seven different African States Parties, at a course on the running and interpretation of

gas chromatography-mass spectrometry (GC-MS) spectra. In the Congo, six laboratories were visited and in Uruguay, the OPCW facilitated a visit by an expert from Rhodes University, Grahamstown, South Africa, to the Universidad de la República (UDELAR), in Pando, Canelones, to conduct a series of seminars in sample-preparation techniques.

Equipment-Exchange Programme

- 2.10 Under this programme, which supports the voluntary transfer of laboratory equipment, a training programme was organised at Rhodes University, Grahamstown, South Africa on the use and maintenance of the instruments donated by the Secretariat. GC-MS equipment was donated to the Laboratory of the Government Chemist at the Ministry of Public Health and Sanitation in Kenya, the Department of Pharmaceutical Chemistry at the University of Maiduguri in Nigeria, and the Chemistry Department of the aforementioned Rhodes University.

ASSISTANCE AND PROTECTION

- 2.11 The assistance-and-protection activities performed by the OPCW are based on the provisions of Article X of the Convention, which gives States Parties the right to request assistance and protection in case of the use or threat of use of chemical weapons. It also acknowledges the right of States Parties to receive expert advice on the development and improvement of protective capacities against chemical weapons.

Advice to States Parties on protection programmes against chemical weapons

- 2.12 During the reporting period, the Secretariat continued to conduct long-term national capacity-building projects on development and improvement of protection against chemical weapons for personnel who are involved in emergency response. In the context of these projects, basic courses were held in Bolivia (Plurinational State of), Viet Nam, and Yemen. A practical exercise on emergency response was organised in Sri Lanka. At the request of Mexico, three serial events, including training courses and table-top and field exercises, were provided in the framework of the assistance-and-protection project in preparation for the Pan-American Games in 2011. In response to a request for expert advice, the Secretariat conducted an initial technical-assessment visit to Seychelles in order to identify how best to implement the programme for the development and improvement of a protective capacity against chemical weapons.
- 2.13 Capacity-building workshops and training courses on emergency response in case of use of chemical weapons were organised in several regions or subregions with a view to facilitating regional coordination. In February, the Secretariat (together with the Regional Arms Control Verification and Implementation Assistance Centre) organised the annual seminar for the States Parties of South Eastern Europe, held in Croatia. In May, the Secretariat organised, in collaboration with the host countries, regional assistance and protection courses in Brazil for the States Parties of the GRULAC region and in the Republic of Korea for the Asian States Parties. In November, the Secretariat (with financial support provided in the framework of the European Union Council Decision 2009) organised a regional workshop in Chile on

Article X and issues of regional cooperation in the areas of assistance and emergency response for GRULAC States Parties

- 2.14 The Secretariat organised international courses, workshops, and meetings on assistance and protection for first responders in collaboration with the governments of China, the Czech Republic, Finland, Serbia, Slovakia, and Switzerland. The Secretariat, together with the National Authority of Sweden, also organised a protection-network meeting in Sweden.

Coordinating and mobilising the international-response mechanism

- 2.15 The Secretariat has continued formal communication with the United Nations Office for the Coordination of Humanitarian Affairs (UNOCHA), the Euro Atlantic Disaster Response Coordination Centre of the North Atlantic Treaty Organization (NATO), and the Implementation Support Unit of the Biological Weapons Convention, as well as other agencies potentially involved in an emergency response, in order to cope with mandated assistance tasks in a cost-effective and coordinated manner. A technical visit was undertaken in Germany to evaluate and discuss the offer of assistance from this State Party under paragraph 7 of Article X of the Convention. Bilateral consultation meetings were held with Peruvian and Ukrainian authorities in order to finalise bilateral agreements concerning the procurement of assistance in accordance with paragraph 7 of Article X.
- 2.16 The facilitator on Article X issues called for informal consultations to provide information and discuss the following matters: guidance and advice in respect of States Parties' submissions on their national programmes related to protection against chemical weapons; the annual calendar of events conducted by the Secretariat; a report by the Director-General on the status of implementation of Article X of the Convention as at 31 December 2009 (EC-59/DG.12, dated 9 February 2010 and Corr.1, dated 14 April 2010); and the status of preparation of the ASSISTEX 3 exercise, held in Tunisia from 11 to 15 October (S/886/2010, dated 26 November 2010).
- 2.17 In-house training sessions were conducted with the support of the United Kingdom of Great Britain and Northern Ireland for the members of the Assistance Coordination and Assessment Team of the Secretariat.
- 2.18 As mentioned above, the Secretariat, with the cooperation of the Government of Tunisia, organised ASSISTEX 3, the aim of which was to practise and assess the procedures that the Secretariat has in place to respond to a request for assistance. Most of the OPCW field procedures and capabilities were tested, and invaluable lessons were learned. Assistance teams with equipment from 11 Member States (245 individuals), four subregional teams with 43 participants from 24 other Member States, and five representatives from UNOCHA participated in the exercise. After the exercise, the evaluation team presented its conclusions. These conclusions will be used to tailor OPCW training, equipment, and procedures in order to ensure the continuing preparedness of the Secretariat to perform an IAU.
- 2.19 In preparation for ASSISTEX 3, and as part of the ongoing efforts to ensure readiness to perform IAUs, inspectors attended several IAU training courses in 2010. This included training in Austria and Belgium, organised by UNOCHA and related to the

running of an on-site operations coordination centre (OSOCC), and toxic chemical training in Serbia. For the first time, the toxic chemical training was delivered using a series of IAU simulations incorporating command-and-control operations, decontamination, reconnaissance, non-destruction evaluation, sampling and analysis, medical investigation, interviews, and the collection of witness statements.

Obligations of States Parties under paragraphs 4 and 7 of Article X of the Chemical Weapons Convention

- 2.20 Between the entry into force of the Convention and the end of the reporting period, 141 States Parties had submitted information on their national programmes for protective purposes, pursuant to paragraph 4 of Article X (see Annex 9).
- 2.21 As at 31 December 2010, 77 Member States had met their obligations under paragraph 7 of Article X (see Annex 10).
- 2.22 At the end of the period under review, in accordance with subparagraph 7(a) of Article X, 44 States Parties had made contributions to the voluntary fund for assistance. As at 31 December 2010, the fund amounted to EUR 1,403,257 (see Annex 11).

IMPLEMENTATION SUPPORT

- 2.23 During the period under review, the Secretariat's implementation-support programmes continued to focus on assisting States Parties in meeting their obligations under Article VII of the Convention and on broadening the capabilities of States Parties to effectively implement the Convention.
- 2.24 The Secretariat has specifically sought to assist in areas such as:
- (a) establishing National Authorities;
 - (b) enacting legislation to implement the Convention;
 - (c) identifying declarable chemical-industry and trade activities; and
 - (d) submitting declarations.
- 2.25 The Secretariat has also responded to the identified needs of States Parties by providing training and workshops in the areas of customs and the implementation of the requirements of the transfers regime, licensing, and the training of National Authority personnel as national inspection escorts.

Technical assistance

- 2.26 Twelve Member States received bilateral technical-assistance visits (TAVs) in the above-mentioned areas. A bilateral visit to the Pan-African Parliament Headquarters in Midrand, South Africa, and another to the African Union Headquarters in Addis Ababa, Ethiopia, also took place. Another TAV, to be held in Armenia, had to be postponed to 2011 due to scheduling difficulties.

Regional meetings

- 2.27 Four regional meetings for National Authorities took place in Bosnia and Herzegovina (May), Bolivia (June), Namibia (September) and Kuwait (November) to discuss practical aspects of implementing the Convention. These meetings offered National Authorities the opportunity to exchange views and best practices on their own efforts towards national implementation and to draw on the expertise available from the Secretariat on specific issues such as the transfers regime under the Convention.

Specialised workshops and training courses

- 2.28 Twelve regional and subregional workshops / training courses for National Authority officials, customs officials, and other stakeholders of National Authorities were held in 2010. The focus of these meetings was on national implementation of the Convention, technical aspects of the transfers regime, and the EDNA. They were conducted in the following States Parties: Brazil (October), the Czech Republic (April), Fiji (twice) (June/July), Hungary (October), Kazakhstan (August), Malaysia (September), Qatar (twice) (December), Spain (July), Uganda (April), and the United Republic of Tanzania (December).
- 2.29 Three training courses for National Authority personnel, two basic courses in France (April) and in Ethiopia (November) and one advanced course in Singapore (June), were offered by the Secretariat as part of its programme for improving the competence of National Authority personnel to effectively implement the Convention.
- 2.30 In addition to the specialised workshops and training courses, the Secretariat also attended the annual meeting of the Green Customs Initiative (GCI), as well as a special meeting of the partners of the GCI, with a view to furthering cooperation within this framework and with the World Customs Organization, and in order to plan the engagement of the OPCW with the GCI in the area of the development of e-learning tools. The Secretariat also continued its efforts to respond to the expressed needs of States Parties for additional training for inspection escorts by conducting a national course in Portugal in May 2010, at the request of the Portuguese National Authority.
- 2.31 The Secretariat also continued its efforts to engage with regional organisations to emphasise the importance of the Convention and the necessity of enacting national implementing legislation. In this regard, experts from the Secretariat visited the West African Economic and Monetary Union in March and conducted a seminar in South Africa in October 2010 on the implementation of the Convention in Africa for African National Authorities and Members of the Pan-African Parliament. Members of the Secretariat also attended the meetings of the Inter-Parliamentary Union in Thailand in March, and in Switzerland in October.

Twelfth Annual Meeting of National Authorities

- 2.32 In 2010, the key focus of the annual meeting, held from 26 to 28 November, was the impact of the programmes and projects conducted by the Secretariat in support of the efforts of National Authorities to effectively implement the Convention. The meeting, which attracted 185 participants from 122 States Parties, addressed engagement and the sharing of experiences and best practices among States Parties and with the Secretariat.

THE PROGRAMME TO STRENGTHEN COOPERATION WITH AFRICA ON THE CHEMICAL WEAPONS CONVENTION

- 2.33 In 2008, the Director-General was requested by the Council at its Fifty-Second Session to implement the Programme to Strengthen Cooperation with Africa on the Chemical Weapons Convention (hereinafter “the Africa Programme”) (EC-50/DG.17, dated 26 September 2007). In 2010, the Africa Programme continued to be a central feature of the efforts of the Secretariat. The following paragraphs summarise the activities undertaken in 2010 under the Africa Programme.
- 2.34 The Secretariat continued engagement with African Member States to accelerate and strengthen efforts under the Africa Programme in order to meet the needs and requests of the African Member States. All the activities of the existing projects were carried out with a focus on Africa, with some programmes designed specifically for the African Member States.
- 2.35 In collaboration with the National Authority of Tunisia, the Secretariat organised a national emergency chemical response training course in Tunisia in February. The course was funded by the United Kingdom of Great Britain and Northern Ireland.
- 2.36 In collaboration with the National Authority of Ethiopia and sponsored by the European Union Council Decision 2009, the Secretariat organised a regional workshop on assistance and protection against chemical weapons for the States Parties in Africa, which was held from 17 to 19 March in Addis Ababa, Ethiopia.
- 2.37 In May, a subregional capacity-building training course in the Czech Republic for the States Parties of East Africa was funded by contributions from the Czech Republic. In June, a subregional capacity-building training course in Senegal for the States Parties of West Africa was funded by financial contributions from Norway, with expert/financial support from Switzerland. An annual regional training course on assistance and protection for African Member States was held in collaboration with the Government of South Africa. In September, the Secretariat (in collaboration with the National Authority of Morocco) organised a subregional delivery of assistance course in Morocco for the States Parties of the North African subregion. The course was funded by contributions from the United Kingdom of Great Britain and Northern Ireland.
- 2.38 The Secretariat organised a number of activities with a view to providing technical assistance, for instance by conducting subregional/regional meetings, specialised workshops, and training courses. These included activities in Botswana, the Central African Republic, Lesotho, Mozambique, Namibia, Uganda, the United Republic of Tanzania, and Zambia.

- 2.39 The end of 2010 also saw the finalisation of the first three-year period of implementation of the Africa Programme and, as required, a review of the programme was carried out by the Secretariat and submitted to the Council and the Conference respectively (EC-62/DG.15, dated 30 September 2010 and C-15/DG.12, dated 10 November 2010). The programme was found to have made a significant contribution to the improvement of efforts to implement the Convention by African States Parties; as a consequence, the Director-General approved the extension of the programme for a further three years.

3. POLICY-MAKING ORGANS

ACTIVITIES OF THE CONFERENCE OF THE STATES PARTIES

Fifteenth Regular Session

- 3.1 Among the matters on which the Conference adopted decisions at its Fifteenth Session, which was held from 29 November to 3 December 2010, were the following:
- (a) a request by the Libyan Arab Jamahiriya for the extension of the intermediate deadlines for destruction of its Category 1 chemical weapons (C-15/DEC.3);
 - (b) a proposal for a multi-year payment plan to regularise the payment of outstanding annual contributions (C-15/DEC.4, dated 1 December 2010);
 - (c) an amendment to the Financial Regulations and Rules of the OPCW (C-15/DEC.5, dated 1 December 2010);
 - (d) an updated list of approved inspection equipment with operational requirements and technical specifications (C-I/DEC.71*, dated 30 November 2010); and
 - (e) the Programme and Budget of the OPCW for 2011 (C-15/DEC.6, dated 2 December 2010).
- 3.2 The Conference at this same session considered and noted several Notes by the Director-General related to the implementation of Article VII obligations (C-15/DG.9, C-15/DG.10, and C-15/DG.11, all dated 27 October 2010).
- 3.3 Also at its Fifteenth Session, the Conference requested the Council to continue its deliberations with a view to developing further measures for emergency assistance to Member States, including with regard to the victims of chemical weapons, as provided for in Article X of the Convention, taking into account all proposals from the States Parties relevant to this issue brought forward to the Conference at this session and/or to the Council, and to report back to the Conference at its Sixteenth Session, along with any appropriate recommendations (paragraph 9.17 of C-15/5, dated 3 December 2010).
- 3.4 The Conference requested the Council to consider, through the ongoing facilitation process, the outcome of the workshop on Article XI held in November in order to develop concrete measures and recommendations within an agreed framework to ensure the full, effective and non-discriminatory implementation of Article XI, as decided in C-14/DEC.11, dated 4 December 2009 (paragraph 17.2 of C-15/5).
- 3.5 The Conference noted with concern that the final extended destruction deadline of 29 April 2012 may not be fully met. While noting that significant progress has been made, the Conference also noted that over 37.17% of chemical weapons stockpiles remained to be destroyed as of 31 October 2010. In this regard, the Conference urged all possessor States Parties to take every necessary measure with a view to ensuring their compliance with the final extended destruction deadline. The Conference

stressed in this regard that no action should be undertaken that would undermine the Convention or that would raise questions about the commitment of States Parties, or lead to the rewriting of or reinterpreting of the Convention's provisions (paragraphs 9.7 and 9.8 of C-15/5).

ACTIVITIES OF THE EXECUTIVE COUNCIL

- 3.6 During the reporting period, the Council considered a number of reports by the Secretariat on the status of implementation of the Convention, including as regards verification activities and the implementation of Articles X and XI.
- 3.7 The Chairperson of the Council, the Director-General of the Secretariat, and other representatives of the Council conducted a visit from 6 to 9 September 2010 to the Pochev CWDF in the Russian Federation, to consider the progress and efforts made towards achieving complete destruction (EC-62/3, dated 29 September 2010).
- 3.8 The Council also:
- (a) reviewed progress in and adopted decisions on the destruction of chemical weapons and the destruction or conversion of CWPFs and;
 - (b) monitored the progress made in implementing the plan of action regarding the implementation of Article VII obligations, and submitted several Notes on the matter to the Conference;
 - (c) took decisions on matters related to the chemical industry;
 - (d) monitored the implementation of the action plan for the universality of the Convention; and
 - (e) approved modifications or amendments to facility agreements between the OPCW and a number of States Parties.

ACTIVITIES OF SUBSIDIARY BODIES

- 3.9 The Commission for the Settlement of Disputes Related to Confidentiality (hereinafter "the Confidentiality Commission") held its Twelfth Meeting from 19 to 21 May and, inter alia, further reviewed its operating procedures.
- 3.10 The Advisory Body on Administrative and Financial Matters held its Twenty-Eighth Session in May/June, and its Twenty-Ninth in September. At these sessions, it made recommendations in a number of areas, including the revision of interim Staff Rules 9.4.02 and 5.1.01(c) (EC-62/DEC.5, dated 6 October 2010), and the Programme and Budget of the OPCW for 2011 (C-15/DEC.6).
- 3.11 The Scientific Advisory Board (SAB) held one session, its fifteenth, in April 2010, during which it discussed the question of applications of nanomaterials and nanotechnology in drug delivery. In the assessment of the SAB, given the current status of development in these areas, delivery of agents with nanocarriers by intravenous or oral route would have only a limited application for offensive chemical weapons purposes. However, the SAB considered that there may be applications of

nanocarriers for improved drug delivery of medical countermeasures to chemical-warfare agents. Considering the fast pace of development in nanotechnology, the SAB was of the opinion that it should keep under scrutiny the development of nanocarriers. The SAB further addressed the question of riot control agents and incapacitating chemical agents. The temporary working group on sampling and analysis held its fifth meeting in November. During this meeting, the experts of the temporary working group continued to address questions of analysis of toxins, sample preparation for aqueous solutions of degradation products, trace analysis in investigations of alleged use, and applications of molecularly imprinted polymers. The report of the temporary working group will be considered by the SAB during its Sixteenth Session.

- 3.12 The Conference at its Fifteenth Session considered and noted a report by the Committee on Relations with the Host Country on the performance of its activities in the period from November 2009 to September 2010 (EC-62/HCC/1 C-15/HCC/1, dated 30 September 2010).

4. EXTERNAL RELATIONS

UNIVERSALITY

- 4.1 In accordance with the provisions of the action plan adopted by the Council in 2003²⁹ and the subsequent decisions adopted by the Conference in 2005, 2006, 2007, and 2009, as well as the recommendations contained in the final report of the Second Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention (hereinafter “the Second Review Conference”),³⁰ the Secretariat continued to carry out activities aimed at promoting universal adherence to the Convention.
- 4.2 As at the end of 2010, there were 188 States Party. There remained seven States not Party: two Signatory States³¹, and five non-Signatory States³².
- 4.3 Universality featured prominently in the programme of a seminar entitled “The OPCW’s Contribution to the International Security Dimension: Achievements and Challenges”, which the Secretariat organised in Berlin, Germany, in early June 2010, with the financial support of the European Union and in cooperation with the Government of Germany. The event brought together over 120 participants from Member States, international and regional organisations, NGOs, the chemical industry, and the United Nations. Representatives from three States not Party (Egypt, Israel, and Myanmar) also participated in the seminar, which aimed to ensure continuing worldwide political support for the Convention, its universality, and its effective implementation.
- 4.4 The Director-General, in the margins of the sixty-fifth session of the United Nations General Assembly in New York, met representatives of Egypt, Israel, Myanmar, Somalia, and the Syrian Arab Republic. He also received at the OPCW Headquarters the Ambassador of Angola to the Benelux countries. A number of communications were addressed to senior officials of States not Party, inviting them to nominate participants in OPCW events and encouraging their respective governments to join the Convention.
- 4.5 Representatives of Angola, Egypt, Israel, and Myanmar were sponsored to attend various OPCW events.

OUTREACH ACTIVITIES

- 4.6 During the period under review, the Director-General paid 16 visits to States Parties³³, where he met with senior officials and delivered statements at national and international colloquiums, meetings, and conferences dealing with issues related to

²⁹ EC-M-23/Dec.3, dated 24 October 2003.

³⁰ C-10/DEC.11, dated 10 November 2005; C-11/DEC.8, dated 7 December 2006; C-12/DEC.11, dated 9 November 2007, C-14/DEC.7, dated 2 December 2009, and RC-2/4, dated 18 April 2008, respectively.

³¹ Israel and Myanmar.

³² Angola, the Democratic People’s Republic of Korea, Egypt, Somalia, and the Syrian Arab Republic.

³³ Bosnia and Herzegovina, China, the Czech Republic, France, Germany, Italy, Japan, Kuwait, Namibia, Poland, the Russian Federation, South Africa, Switzerland, Tunisia, and the United States of America (2).

the Convention. The Deputy Director-General visited five States Parties³⁴. Additionally, the Director-General hosted 148 visits to the OPCW Headquarters by 75 States Parties and two States not Party. The Deputy Director-General received representatives of two States Parties.

- 4.7 Cooperation with States Parties and their involvement in the effective implementation of the Convention were enhanced through a number of activities. In particular, the Secretariat organised, in October, the tenth induction workshop for new diplomatic personnel involved in the work of the OPCW. The workshop was attended by 60 delegates of States Parties and by two representatives from States not Party.
- 4.8 The Secretariat also continued its activities aimed at strengthening the partnership and cooperation with the United Nations in the context of the Relationship Agreement between the United Nations and the OPCW³⁵. In this context, the Director-General met with the United Nations Secretary-General, H.E. Mr Ban Ki-moon, and his High Representative for Disarmament Affairs, Mr Sergio Duarte, at the United Nations Headquarters in New York, where he also delivered his annual address to the First Committee of the United Nations General Assembly at its sixty-fifth session. Following this, the Deputy Director-General also addressed the plenary of the General Assembly on behalf of the Director-General. Subsequently, the General Assembly adopted a resolution on the implementation of the Chemical Weapons Convention³⁶ and a resolution on cooperation between the United Nations and the OPCW³⁷. The OPCW Director-General also addressed a high-level meeting at the United Nations in New York in September 2010 that was convened by Secretary-General Ban Ki-moon, entitled “Revitalising the Conference on Disarmament and Taking Forward Multilateral Disarmament Negotiations”. The meeting brought together ministerial- and higher-level representatives of United Nations Member States with senior officials of the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organisation, the International Atomic Energy Agency, and the OPCW.
- 4.9 In the context of the implementation of United Nations Security Council resolution 1540 (2004), the Secretariat continued to contribute to relevant United Nations regional events held during the year. On the occasion of his above-mentioned visit to the United Nations, the Director-General also met with H.E. Mr Claude Heller, Chairman of the 1540 Committee of the United Nations Security Council.
- 4.10 Additionally, the Secretariat liaised with the United Nations Office in Geneva to organise a two-day visit to the OPCW Headquarters in September, within the framework of the 2010 United Nations Disarmament Fellowship Programme. Cooperation with regional organisations was also sustained, particularly with the African Union, the European Union, and the Organisation for Security and Cooperation in Europe.

³⁴ Croatia, Ethiopia, Qatar, Sweden and Tunisia.

³⁵ A/RES/55/283, dated 7 September 2001.

³⁶ A/RES/65/57, dated 8 December 2010.

³⁷ A/RES/65/236, dated 22 December 2010.

- 4.11 As part of the cooperation with research institutions and centres of excellence, two representatives from the Secretariat paid an official visit to Accra, Ghana, where they addressed participants at a course on small arms and light weapons organised by the Kofi Annan International Peacekeeping Training Centre.

MEDIA AND PUBLIC AFFAIRS

- 4.12 In the course of 2010, the OPCW website continued to undergo significant development. New graphic templates were designed and implemented to give the website a cleaner, more professional look, and website architecture was modified to simplify navigation. The Content Management System software was upgraded to a newer version to improve website performance, back-end maintenance and security. For the first time ever, audiovisual and photographic content was produced and posted onto the website in real time for the ASSISTEX 3 exercise, in cooperation with a team from the national fire service (Vigili del Fuoco) of Italy.
- 4.13 Building on the ASSISTEX 3 experience, the Secretariat purchased a full set of audiovisual equipment (high-definition camera, lights, editing suite, software, and accessories) and began work to convert a storage space in the Secretariat into a recording studio, to begin in-house production of video films, interviews, and podcasts in early 2011.
- 4.14 At the request of the Director-General, the Secretariat launched new initiatives in public diplomacy and social media. Analytical papers were prepared on each subject to provide a framework for discussion and agreement in taking the initiatives forward. A Public Diplomacy Task Force was established to formulate a strategy and action plan in this sphere for the period from 2011 through 2012, together with a Website Governance Group to encourage and support innovation in communication and e-learning.
- 4.15 Articles on chemical weapons destruction activities, national-level meetings and exercises, the appointment of the new Director-General, and other OPCW-related issues were regularly published in specialised media and websites. In partnership with the T.M.C. Asser Instituut, The Hague, the Netherlands, the Secretariat co-developed and launched the first summer programme for graduate students and young professionals on “Weapons of Mass Destruction Demilitarisation and Non-proliferation”, which will become a regular annual event. The OPCW again participated in the “Open Day” for the general public and received by far the highest rating among the seven participating international organisations in an audience survey conducted by the municipality of The Hague. Thirty-nine groups comprising more than 1,100 diplomats, students, and members of the public visited the Secretariat and received presentations by staff members of the Secretariat.

HEADQUARTERS AGREEMENT

- 4.16 In the reporting period, the Committee on Relations with the Host Country was chaired by H.E. Mr Jorge Lomónaco Tonda, Ambassador of Mexico, followed by H.E. Mr Jean-François Blarel, Ambassador of France. The Committee is comprised

of two representatives of each of the regional groups³⁸, a representative of the host country³⁹, and the Director-General. In 2010, the Committee held one meeting on 15 November 2010 to discuss, inter alia, issues related to the implementation of the Headquarters Agreement, the privileges and immunities of Permanent Representations and OPCW staff members. The Committee reported on the progress made in its work to the Conference at its Fifteenth Session (EC-62/HCC/1 C-15/HCC/1).

EUROPEAN UNION COUNCIL DECISION 2009

- 4.17 During the period under review, the European Union Council Decision 2009 in support of OPCW activities supported concrete projects aimed at further strengthening the multilateral disarmament and non-proliferation measures of the Convention. The projects covered a wide range of OPCW activities, including promoting universality and national implementation of the Convention, enhancing the capacities of States Parties to fulfil their obligations under the Convention, a seminar on the OPCW's contribution to international security dimensions and challenges, a table-top exercise on the preparedness of States Parties to prevent and respond to attacks involving chemicals, and activities promoting international cooperation in the peaceful uses of chemistry.
- 4.18 In the framework of the European Union Council Decision 2009, specific support was also provided for the Africa Programme, a project that incorporates activities focusing on the specific needs of the African continent in the implementation of the Convention (see paragraphs 2.33 to 2.39 above).

³⁸ Algeria and South Africa for the African Group; the Islamic Republic of Iran and Pakistan for the Asian Group; Croatia and the Russian Federation for the Eastern European Group; Costa Rica and Mexico for the GRULAC; and Switzerland and Belgium for the Western European and other States Group (WEOG).

³⁹ H.E. Mr Pieter de Savornin Lohman.

5. EXECUTIVE MANAGEMENT AND ADMINISTRATION

ADMINISTRATIVE AND BUDGETARY MATTERS

- 5.1 The Administration Division supported the operational needs of the Organisation by providing services in the areas of budget, finance, human resources, information and communication technology, logistics, procurement, and training. It was also responsible for managing the physical infrastructure of the OPCW Headquarters in The Hague and the OPCW Laboratory in Rijswijk.
- 5.2 The main activities in 2010 included:
- (a) formulating, monitoring, and implementing the OPCW Programme and Budget for 2010 of EUR 74.5 million (C-14/DEC.8, dated 2 December 2009), and providing Member States with timely support and information in order to assist them in reaching a positive decision on the OPCW Programme and Budget for 2011 (C-15/DEC.6);
 - (b) advancing the transition from the United Nations System Accounting Standards to IPSAS with the production of pro forma IPSAS-compliant Financial Statements for the period from 1 January to 30 June 2010, as a first trial run. In reviewing the pro forma statements, the External Auditor reported that “[t]he pro forma statements of the OPCW fulfil the structural requirements of IPSAS since the statements contain the necessary components,” and “[t]he current structure of the financial statements and the accounting policies are compliant with IPSAS”;
 - (c) securing approval by the Conference at its Fifteenth Session of proposed amendments to the Financial Regulations and Rules of the OPCW in the context of the legal adoption and implementation of IPSAS, enabling the Secretariat to produce the above-mentioned IPSAS-compliant Financial Statements for the financial reporting period beginning 1 January 2011. The financial situation of the OPCW as of 31 December 2010 is provided in Annex 12;
 - (d) implementing a centralised asset-management system that is IPSAS-compliant, and configuring the financial-management system of the Organisation to accommodate IPSAS requirements;
 - (e) continuing the implementation of the tenure policy;
 - (f) strengthening administrative processes with respect to recruitment and staff administration, and streamlining internal procedures through increased use of IT⁴⁰-based solutions;
 - (g) modernising the security-critical network (SCN) with the replacement and upgrade of all servers and the implementation of a new security audit tool;

⁴⁰ IT = information technology.

- (h) enhancing software for the Verification Information System (VIS) and implementation of an IT-based planning and scheduling tool to assign inspectors to missions. Other information systems released in 2010 included a new library-management system, a secured data-export tool on the SCN and the introduction of encrypted USB⁴¹ keys for inspection missions;
- (i) procuring goods and services with a value of almost EUR 10.5 million, which were sourced from 18 countries; 69% of the purchases were made in the Netherlands. Seventy-five orders (including multiple-year contracts) were at a value of EUR 25,000.00 or higher, with a total value of EUR 8.4 million; and
- (j) introducing RBM principles in the OPCW, an initiative approved by the Director-General. An outline of principles and proposed next steps include RBM training for senior and programme managers and other key staff members in 2011. The training will be designed to help programme managers refine their key performance indicators and focus on achieving programme results.

INTERNAL OVERSIGHT

- 5.3 In 2010, the Office of Internal Oversight (OIO) issued a total of eight final reports. Internal audit reports included IPSAS project management and short-term appointments. Part of the audit of short-term appointments included spot checks on personnel and recruitment files. An audit of asset management and inventory control in the OPCW was initiated.
- 5.4 Confidentiality audit reports covered a review of the activities of the Declarations Branch in implementing the confidentiality regime, and an audit of the status of implementation of the VIS. Furthermore, an audit of the implementation and monitoring of the confidentiality regime in the Secretariat was initiated. The Director-General also requested a preliminary inquiry into a complaint against a staff member.
- 5.5 Evaluation reports were issued on the implementation of Article XI of the Convention, the programmes and activities of the Government Relations and Political Affairs Branch, and the Inspectorate Management Branch Training Cell. An evaluation of the Operations, Infrastructure and Support Section of the Information Services Branch was initiated.
- 5.6 The role of the OIO as adviser to management remained important. The cumulative rate of implementation of OIO recommendations for 2010 was 87.5% at the end of the reporting period, compared to 92.1% at the end of 2009.
- 5.7 On 24 November 2010, the Dutch Accreditation Council, the *Raad voor Accreditatie* (RvA), performed a surveillance assessment of the Secretariat's Quality Management System. The RvA reported six minor non-conformities that did not meet accreditation standards. The Secretariat will notify the RvA in February 2011 of the corrective actions taken.

⁴¹ USB = universal serial bus.

- 5.8 In response to a recommendation made by the RvA during its surveillance visit on 3 November 2009, the Secretariat has taken steps to ensure the independence of the Quality Assurance Manager. The Internal Auditor, the Senior Evaluation Officer, and the Confidentiality Auditor have, since then, reviewed the respective processes and have signed the accreditation certificates.

LEGAL AFFAIRS

- 5.9 Throughout the reporting period, the Office of the Legal Adviser (LAO) provided regular legal advice to the policy-making organs, States Parties, and other units of the Secretariat. It also represented the OPCW in two cases before the International Labour Organization Administrative Tribunal.
- 5.10 The Secretariat continued to provide tailor-made assistance on national implementation of the Convention to the requesting States Parties, pursuant to subparagraph 38(e) of Article VIII of the Convention, as well as to the decision on national implementation measures of Article VII obligations adopted by the Conference at its Fourteenth Session (C-14/DEC.12, dated 4 December 2009).
- 5.11 Throughout the reporting period, the Secretariat contributed to 21 training courses, awareness workshops, TAVs, and other activities related to national implementation. Moreover, it provided, upon request, 20 comments on draft implementing legislation and 10 comments or guidance on measures at the regulatory level. Such requests for legal assistance were received from 24 States Parties from the following regions: fourteen from Africa; three from Asia; three from Eastern Europe; three from the GRULAC; and one from the WEOG.
- 5.12 The Secretariat delivered 19 presentations to university students and the general public, raising awareness regarding the Convention.
- 5.13 The Secretariat registered 10 international agreements and legal instruments during the year under review and one amendment to an international agreement already in force. Annex 13 presents a list of them.
- 5.14 The LAO continued to negotiate bilateral privileges and immunities agreements with States Parties under paragraph 50 of Article VIII of the Convention on behalf of the Secretariat. In 2010, the Council considered and concluded three such agreements between the OPCW and States Parties, raising to 38 the total number of agreements concluded by the OPCW.

CONFIDENTIALITY AND SECURITY

- 5.15 During 2010, emphasis was placed on the building of a new Office of Confidentiality and Security (OCS) management team and the development of mature security-risk management, corporate governance, and management-planning processes to complement the existing robust confidentiality and security regimes at the OPCW. Focus was also placed on the consolidation of routine support to OPCW operations and administration, including the safety and security of staff at the OPCW Headquarters and at the Rijswijk facility.

- 5.16 New initiatives included the development of improved travel-security risk advice; the implementation of more formal IT Security Risk Assessment methodologies; the introduction of a uniform-upgrade programme for the OPCW guard force; the procurement of new IT-system monitoring and forensics tools; and the cross-training of the OCS management team across all areas of its mandate.
- 5.17 The OCS maintained efforts towards promoting security awareness within the organisation by holding 51 training courses in the areas of confidentiality and physical security. The OCS hosted and provided support to the work of the Security Audit and Assessment Team, formerly known as the Security Audit Team 5 (SAT-V), during four visits to the OPCW Headquarters, to facilitate its ongoing assessment of the security-related aspects of the SCN. The OCS also hosted and provided secretarial support to the Twelfth Meeting of the Confidentiality Commission, held in May.

HEALTH AND SAFETY

- 5.18 There were no significant adverse health-and-safety events in the Secretariat in 2010. Regarding mission activity, there were no delays in mission health-and-safety preparedness, no significant lost-time accidents or incidents, and no incidents involving exposure to chemical weapons. At the OPCW Headquarters, there were also no significant work-related accidents or incidents. The average sick-leave rate was 4.5 days per person, approximately half that of comparable organisations. The annual workplace inspection showed improved compliance with OPCW health-and-safety standards, with primarily minor issues to be further addressed. Major projects undertaken included the development phase for accreditation as an occupational health-and-safety service, ongoing development of electronic occupational health records, and the introduction of an improved safety-planning process. A significant amount of development work was also undertaken in support of the Inspectorate Division, particularly regarding equipment issues and the effective employment of medical staff.

SPECIAL PROJECTS

- 5.19 The Secretariat continued to support the Council's Open-Ended Working Group (OEWG) on Terrorism. The OEWG on Terrorism remains the main body giving shape to the counter-terrorism policies of the Organisation and advising on the position and activities of the Secretariat in this field.
- 5.20 In 2010, three meetings were conducted under the auspices of the OEWG on Terrorism, including the joint facilitations for Articles VII and X. These meetings served to improve the coordination of the contribution of the OPCW in the context of global counter-terrorism efforts.
- 5.21 In 2010, a Note by the Director-General entitled "Status of the OPCW's Contribution to Global Anti-Terrorism Efforts" (EC-59/DG.11, dated 8 February 2010) was submitted to the Council at its Fifty-Ninth Session. The Note included information on relevant decisions by the policy-making organs of the OPCW and on activities of the OEWG on Terrorism. It also gave details of relevant activities undertaken by the Secretariat, including those in collaboration with States Parties and with relevant

international organisations. As requested by delegations, the Secretariat will issue a similar Note annually.

- 5.22 The Secretariat remained active in its contacts with relevant United Nations bodies in the area of counter-terrorism. The Secretariat participated in the work of the United Nations Counter-Terrorism Implementation Task Force (UN CTITF), which oversees the implementation of the United Nations Global Counter-Terrorism Strategy. The OPCW is co-chairing the Working Group on Preventing and Responding to WMD⁴² Terrorist Attacks.
- 5.23 In cooperation with the UN CTITF, the Secretariat started developing the concept of a workshop on the international response to and mitigation of terrorist use of chemical, biological, and toxin weapons or materials. The workshop, which was to be held in 2011, aimed at defining major threats facing the international community from the potential terrorist use of chemical and biological weapons and materials, and the ways and means of mitigating such threats.
- 5.24 Following concerns expressed at the Second Review Conference (paragraph 9.94 of RC-2/4), the Secretariat continued to encourage States Parties to exchange experiences and discuss issues related to enhancing the security of chemical facilities. One concrete activity in this sphere was a table-top exercise, organised by the Government of Poland and the Secretariat, which took place on 22 and 23 November 2010 in Warsaw, Poland. Such events are designed to create a better understanding of the need for preparedness to prevent terrorist attacks involving chemicals and of the growing risks associated with terrorism. Financial support for the exercise was provided under the European Union Council Decision 2009.
- 5.25 The table-top exercise in Poland marked the launch of a programme on the promotion of the OPCW as a platform for consultations and cooperation, both bilateral and regional, on ways to prevent terrorists from acquiring and/or using chemical weapons.

⁴²

WMD = weapons of mass destruction.

Annex 1

STATUS OF PARTICIPATION IN THE CHEMICAL WEAPONS CONVENTION⁴³ AS AT 31 DECEMBER 2010

SUMMARY	
Number of States Parties:	188
Number of States that had deposited an instrument of accession or ratification and for which the Convention had not yet entered into force:	0
Number of signatory States that had not yet ratified the Convention:	2
Number of States that had neither signed nor acceded to the Convention:	5

Introductory note

1. The Convention was adopted in Geneva on 3 September 1992 by the Conference on Disarmament,⁴⁴ which transmitted it to the United Nations General Assembly at its forty-seventh session. The General Assembly commended the Convention and requested the United Nations Secretary-General, as Depositary, to open it for signature in Paris on 13 January 1993⁴⁵. The Convention remained open for signature in Paris from 13 to 15 January 1993, and thereafter at United Nations Headquarters, New York, until 29 April 1997, when it entered into force. It had been signed by 165 States. States that did not sign the Convention before entry into force may join it at any time thereafter.
2. For States that ratify or accede to the Convention after 29 April 1997, it enters into force on the thirtieth day after the date on which they deposit the instrument of ratification or accession with the United Nations Secretary-General in his capacity as Depositary. For States that succeed to the Convention, it enters into force on the date as and from which they assume responsibility for conducting their own international relations.
3. The following table shows all States Parties as at 31 December 2010, and indicates, for each State Party, as at that date, the dates on which it signed the Convention and/or deposited its instrument of ratification or accession or its instrument of succession with the Depositary, and on which the Convention entered into force for it. The second and third tables list signatory and non-signatory States, respectively, as at 31 December 2010. All lists are alphabetical.

⁴³ The Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction.

⁴⁴ Paragraph 73 and 74 of the Report of the Conference on Disarmament, "Official Records of the General Assembly, Forty-Seventh Session, Supplement no. 27" (A/47/27).

⁴⁵ A/RES/47/39, dated 16 December 1992.

**STATES PARTIES TO THE CHEMICAL WEAPONS CONVENTION

⁴⁷

The United Nations website <http://treaties.un.org> reports as follows:

“The National Assembly of the Republic of Montenegro adopted its Declaration of Independence on 3 June 2006, following the referendum in the Republic of Montenegro on 21 May 2006, which took place pursuant to Article 60 of the Constitutional Charter of Serbia and Montenegro. Montenegro was admitted to membership in the United Nations by General Assembly resolution A/RES/60/264 on 28 June 2006.

In a letter dated 10 October 2006, received by the Secretary-General on 23 October 2006 and accompanied by a list of multilateral treaties deposited with the Secretary-General, the Government of the Republic of Montenegro notified that:

‘[The Government of]*...the Republic of Montenegro decided to succeed to the treaties to which the State Union of Serbia and Montenegro was a party or signatory.

[The Government of] the Republic of Montenegro succeeds to the treaties listed in the attached Annex and undertakes faithfully to perform and carry out the stipulations therein contained as from

LIST OF DESIGNATED LABORATORIES AS AT 31 DECEMBER 2010⁵⁴

	State Party	Laboratory Name	Date of Designation
1.	Belgium	Defence Laboratories Department (DLD)	12 May 2004
2.	China	The Laboratory of Analytical Chemistry, Research Institute of Chemical Defence (RICD)	17 Nov 1998
3.	China	Laboratory of Toxicant Analysis Academy of Military Medical Sciences, Institute of Pharmacology and Toxicology (AMMS)	14 Sep 2007
4.	Finland	Finnish Institute for Verification of the Chemical Weapons Convention (VERIFIN)	17 Nov 1998
5.	France	Centre d'Études du Bouchet (CEB)	29 Jun 1999
6.	Germany	Bundeswehr Research Institute for Protective Technologies and NBC ⁵⁵ Protection	29 Jun 1999
7.	India	VERTOX Laboratory Defence Research and Development Establishment	18 Apr 2006
8.	India	Centre for Analysis of Chemical Toxins, Indian Institute of Chemical Technology*	4 Sept 2008
9.	Netherlands	TNO Defence, Security and Safety	17 Nov 1998
10.	Poland	Laboratory for Chemical Weapons Convention Verification, Military Institute of Chemistry and Radiometry	29 Jun 1999
11.	Russian Federation	Laboratory for Chemical and Analytical Control, Military Research Centre	4 Aug 2000
12.	Singapore	Verification Laboratory, DSO National Laboratories*	14 Apr 2003
13.	Spain	Laboratorio de Verificación de Armas Químicas, Fábrica Nacional la Marañosa	16 Aug 2004
14.	Sweden	Swedish Defence Research Agency (FOI), CBRN ⁵⁶ Defence and Security Division	17 Nov 1998
15.	Switzerland	Spiez Laboratory, Swiss NBC Defence Establishment	17 Nov 1998
16.	United Kingdom of Great Britain and Northern Ireland	Defence Science and Technology Laboratory (Dstl), Chemical and Biological Systems, Porton Down	29 Jun 1999
17.	United States of America	Edgewood Chemical and Biological Forensic Analytical Center	17 Nov 1998
18.	United States of America	Lawrence Livermore National Laboratory, University of California	14 Apr 2003

⁵⁴

An asterisk next to the name of a laboratory means that its status as an OPCW designated laboratory remained suspended at the end of the reporting period, the laboratory having performed unsuccessfully in a recent proficiency test. These laboratories will not be considered for receipt of samples taken for off-site analysis until they perform satisfactorily in future proficiency tests.

⁵⁵

NBC = nuclear, biological, and chemical.

⁵⁶

CBRN = chemical, biological, radiological, and nuclear.
