1. Declarations to Which this Section Applies

This section applies to declaration requirements in respect to chemical weapons destruction facilities (CWDFs). Three types of declarations are required for chemical weapons destruction facilities; they include (1) the General Plan for destruction of chemical weapons, (2) the Detailed Annual Plan for destruction of chemical weapons, and (3) the Annual Report on the destruction of chemical weapons. The General Plan is submitted on one occasion and describes the State Party's entire plan for destruction of all chemical weapons. The Detailed Annual Plan is submitted on a yearly basis and describes, in greater detail than the General Plan, the State Party's plan for destruction of chemical weapons for the upcoming year. The Annual Report is submitted after the end of the year and describes the progress made on the destruction of chemical weapons during that year. (Article III, 1 (a) (v), VA Part IV(A), 6, 16-19, 29-32, 36)

2. Requirements for each State Party with Regard to Declarations of Chemical Weapons Destruction Facilities

2.1 Overview

The table below indicates a summary of the declaration requirements for States Parties in relation to the above mentioned declarations.

Table: Declarations Requirements and Deadlines

Declarations Required	Declaration Deadlines
General Plan for destruction of chemical weapons	EIF (SP) + 30 days
Detailed Annual Plans for destruction of chemical weapons	not less than 60 days before each annual destruction period begins
Annual Reports on destruction of chemical weapons	not later than 60 days after the end of each annual destruction period

Abbreviations: EIF(SP) + 30 days Within 30 days after the CWC enters into force for the State Party.

2.2 General Plan for Destruction of Chemical Weapons

The State Party shall submit to the Technical Secretariat a General Plan for the destruction of chemical weapons not later than 30 days after the Chemical Weapons Convention enters into force for the State Party. The General Plan should provide an overview of the entire national chemical weapons destruction programme of the State Party and information on the efforts of the State Party to fulfil the destruction requirements of the Chemical Weapons Convention. The General Plan should specify the following information.

(a) National Primary Information

The National Primary Information to be provided, as part of the General Plan for destruction of chemical weapons, includes the name of the State Party, the date the State Party submitted the General Plan to the Technical Secretariat, whether the State Party has a General Plan for destruction of chemical weapons, and if the State Party does have such a plan, the Categories of chemical weapons as specified in the Verification Annex (VA) of the Chemical Weapons Convention Part IV(A), Paragraph 16, which the General Plan covers. The Categories to be used are the following:

Category 1: Chemical weapons on the basis of Schedule 1 chemicals and their parts and components;

Category 2: Chemical weapons on the basis of all other chemicals (including chemicals for use as chemical weapons not listed in the Schedules in the Annex on Chemicals) and their parts and components;

Category 3: Unfilled munitions and devices, and equipment specially designed for use directly in connection with the employment of chemical weapons.

These declarations should be submitted not later than 30 days after the CWC enters into force for the State Party.

Form CWD 1.0 should be used for these declarations.

(b) Information on each Existing and Planned Chemical Weapons Destruction Facility

The National Supplementary Information to be provided as part of the General Plan for destruction of chemical weapons should include information on each existing and planned chemical weapons destruction facility. Such information should include the number of chemical weapons destruction facilities existing or planned to be operated over the destruction period, and the number of chemical weapons destruction facilities converted from chemical weapons production facilities planned to be operated over the destruction period. In addition, National Supplementary Information should include, for the entire General Plan of the State Party, the dates destruction began or is planned to begin, and the date destruction is planned to be completed. All dates should be provided in the Quarter/Year format.

For each existing or planned chemical weapons destruction facility, the following information should be provided:

- (i) Facility Code as described in Annex A to this document;
- (ii) Name of the facility; if a mobile destruction process is to be used, name of the destruction site should be provided;
- (iii) Mailing address of the facility;
- (iv) Geographical co-ordinates, to the nearest second, of the centre of the structure housing the destruction process; for sites which will use a mobile destruction process, the centre of the proposed destruction site should be provided; for planned facilities, co-ordinate should be as near as practical; and
- (v) Expected period of operation.

These declarations should be submitted not later than 30 days after the CWC enters into force for the State Party.

Form CWD 1.1 should be used for these declarations.

(c) Cost Estimate for Destroying Chemical Weapons

The National Supplementary Information to be provided as part of the General Plan for destruction of chemical weapons should include cost estimates for the destruction of the chemical weapons, based on current prices at the time of submission of the information. Please indicate currency used for the costs estimates. Total programme cost estimates should be provided and may, *inter alia*, include the following elements:

- (i) Total cost of the destruction;
- (ii) Costs directly related to the costs of destruction, such as:
 - programme management;
 - facility/process design;
 - equipment acquisition;
 - facility construction/ conversion and equipment installation;
 - infrastructure improvements;
 - personnel training;
 - CW transportation if appropriate; and
 - destruction operations;
- (iii) Costs not directly related to the costs of destruction, such as:
 - verification support;
 - development and improvement of technology;
 - waste treatment/disposal; and
 - environmental protection.

These declarations should be submitted not later than 30 days after the CWC enters into force for the State Party.

Form CWD 1.1 should be used for these declarations.

(d) National standards for safety and emissions

The National Supplementary Information to be provided as part of the General Plan for destruction of chemical weapons should include the National standards for safety and emissions that the destruction facility must satisfy. The Safety standards should focus on those specifically related to chemical weapons. Current permitted levels of national industrial safety and environmental standards should be indicated. "Emissions" is defined in this context to include gas, solid and liquid process discharges.

These declarations should be submitted not later than 30 days after the CWC enters into force for the State Party.

Form CWD 1.1 should be used for these declarations.

(e) Plans and programmes for training personnel for operation of destruction facilities

The National Supplementary Information to be provided as part of the General Plan for destruction of chemical weapons should include a description of the plans and programmes for training personnel for the operation of destruction facilities. This information should be provided in narrative format. If it can not be provided when the General Plan is submitted, then the date when the information will be provided should be stated. The information should, *inter alia*, include:

- (i) General contents of the training programme; and
- (ii) Duration of training programme.

These declarations should be submitted not later than 30 days after the CWC enters into force for the State Party.

Form CWD 1.1 should be used for these declarations.

(f) Methods for the Destruction of Chemical Weapons

The National Supplementary Information to be provided as part of the General Plan for destruction of chemical weapons should include information on the development of new methods for the destruction of chemical weapons and improvement of existing methods. This information should be provided in narrative format and should, *inter alia*, include:

- type of technology being investigated or improved;
- sites which might be affected;
- reasons for the development method;
- milestones and criteria for selecting/rejecting new destruction technologies;
- use of declared chemical weapons for the development of destruction processes; and
- [use of declared chemicals for the development of conversion processes to commercial chemicals.]

Results of testing of the development method should be provided if and when the technology is selected for use by the State Party.

These declarations should be submitted not later than 30 days after the CWC enters into force for the State Party.

Form CWD 1.1 should be used for these declarations.

(g) Any issues which could adversely impact on the national destruction programme

The National Supplementary Information to be provided as part of the General Plan for destruction of chemical weapons should include information on any issues which could adversely impact on the National destruction programme. This information should be provided in narrative format and should include a description of all issues which could delay or impede the State Party's ability to meet the destruction requirements for chemical weapons.

These declarations should be submitted not later than 30 days after the CWC enters into force for the State Party.

Form CWD 1.1 should be used for these declarations.

(h) General Schedule for Destruction

The General Plan should include a National summary of the general schedule for destruction of chemical weapons, giving types and approximate quantities of chemical weapons planned to be destroyed in each annual destruction period and during each Phase.

Each State Party should provide all available relevant information in accordance with the Annex on Chemicals and the following Categories:

Category 1: Chemical weapons on the basis of Schedule 1 chemicals and their parts and components;

Category 2: Chemical weapons on the basis of all other chemicals (including chemicals for use as chemical weapons not listed in the Schedules in the Annex on Chemicals) and their parts and components;

Category 3: Unfilled munitions and devices, and equipment specially designed for use directly in connection with the employment of chemical weapons.

For Category 1 and Category 2 chemical weapons, toxic chemical and precursors, common and chemical names should be provided. For Category 3 chemical weapons, the approximate number of units and their aggregate nominal fill volume (m^3), as appropriate, should be provided.

These declarations should be submitted not later than 30 days after the CWC enters into force for the State Party.

Forms CWD 1.2, 1.3, 1.4, 1.5, 1.6, 1.7, 1.8 and 1.9 should be used for these declarations.

(i) Facility Level Information

The General Plan should include information on the types and approximate quantities of Chemical Weapons, and the type (e.g., nerve agent or blister agent) and approximate quantity of chemical fill to be destroyed at each existing or planned chemical weapons destruction facility. This information should be provided for each annual destruction period, and each Category.

Category 1 and Category 2 chemical weapons should be identified by common name, chemical name, and type, e.g. munition, sub-munition, device and piece of equipment, bulk container and other containers. For Category 3 chemical weapons, the approximate number of units and their aggregate nominal fill volume (m^3), as appropriate, should be provided.

These declarations should be submitted not later than 30 days after the CWC enters into force for the State Party.

Forms CWD 1.10, 1.11, 1.12 and 1.13 should be used for these declarations.

2.3 Detailed Annual Plans for Destruction

The State Party should submit to the Technical Secretariat a Detailed Annual Plan for destruction of chemical weapons not less than 60 days before each annual destruction period begins. The Detailed Annual Plan should encompass all stocks to be destroyed during the next annual destruction period and should contain information at both the National level and for each facility. The Detailed Annual Plan should specify the following information.

(a) National Primary Information

The National Primary Information to be provided as part of the Detailed Annual Plan for destruction of chemical weapons includes the name of the State Party, the date the State Party submitted the Plan to the Technical Secretariat, and whether the State Party has a Detailed Annual Plan for destruction of chemical weapons. If the State Party does have such a Plan, the Categories of chemical weapons which the Detailed Annual Plan covers should be indicated. The Categories to be used are the following:

Category 1: Chemical weapons on the basis of Schedule 1 chemicals and their parts and components;

Category 2: Chemical weapons on the basis of all other chemicals (including chemicals for use as chemical weapons not listed in the Schedules in the Annex on Chemicals) and their parts and components;

Category 3: Unfilled munitions and devices, and equipment specially designed for use directly in connection with the employment of chemical weapons.

These declarations should be submitted not less than 60 days before each annual destruction period begins.

Form CWD 2.0 should be used for these declarations.

(b) National Supplementary Information

The National Supplementary Information to be provided as part of the Detailed Annual Plan for destruction of chemical weapons should include information on each existing and planned chemical weapons destruction facility and any changes or revisions to the General Destruction Plan.

For each existing or planned chemical weapons destruction facility, the following information should be provided:

- (i) Facility Code as describe in Annex A to this document;
- (ii) Name of the facility; if a mobile destruction process is to be used, name of the destruction site should be provided;
- (iii) Mailing address of the facility;
- (iv) Geographical co-ordinates, to the nearest second, of the centre of the structure housing the destruction process; for sites which will use a mobile destruction process, the centre of the proposed destruction site should be provided; for planned facilities, co-ordinate should be as near as practical; and
- (v) Expected period of operation.

Changes or revisions to the General Destruction Plan may, *inter alia*, include changes or revisions to:

- General Schedule for Destruction;
- Methods for the Destruction of Chemical Weapons;
- Cost Estimate for Destroying Chemical Weapon;
- National standards for safety and emissions;
- Plans and programmes for training personnel for operation of destruction facilities; and
- Any issues which could adversely impact on the national destruction programme.

These declarations should be submitted not less than 60 days before each annual destruction period begins.

Form CWD 2.1 should be used for these declarations.

(c) General Schedule for Destruction

The Detailed Annual Plan should include a National summary of the general schedule for destruction of chemical weapons, giving types and approximate quantities of chemical weapons planned to be destroyed in the subsequent annual destruction period.

Each State Party should provide all available relevant information in accordance with the Annex on Chemicals and the following Categories.

Category 1: Chemical weapons on the basis of Schedule 1 chemicals and their parts and components;

Category 2: Chemical weapons on the basis of all other chemicals (including chemicals for use as chemical weapons not listed in the Schedules in the Annex on Chemicals) and their parts and components;

Category 3: Unfilled munitions and devices, and equipment specially designed for use directly in connection with the employment of chemical weapons.

For Category 1 and Category 2 chemical weapons, toxic chemicals and precursors, common and chemical names should be provided. For Category 3 chemical weapons, the approximate number of units and their aggregate nominal fill volume (m^3), as appropriate, should be provided.

Start and completion dates for chemical weapons destruction should be given in the month/year format.

These declarations should be submitted not less than 60 days before each annual destruction period begins.

Forms CWD 2.2, 2.3, 2.4, 2.5, 2.6, 2.7, 2.8 and 2.9 should be used for these declarations.

(d) Facility Level Information

The Detailed Annual Plan should include information on the types and approximate quantities of Chemical Weapons, and the type (e.g., nerve agent or blister agent) and approximate quantity of chemical fill to be destroyed at each existing or planned chemical weapons destruction facility. Additionally, the State Party must specify the number of chemical weapons which can be processed by the facility per either hour or day (specify whether hours or days are being used). This information should be provided for each Category for the upcoming annual destruction period.

Category 1 and Category 2 chemical weapons should be identified by common name, chemical name, and type, e.g. munition, sub-munition, device and piece of equipment, bulk container and other containers. For Category 3 chemical weapons, the approximate number of units and their aggregate nominal fill volume (m³), as appropriate, should be provided.

Start and completion dates for chemical weapons destruction should be given in the day/month/year format.

These declarations should be submitted not less than 60 days before each annual destruction period begins.

Forms CWD 2.10, 2.11, 2.12 and 2.13 should be used for these declarations.

(e) Schedule of Planned Activities

The Detailed Annual Plan should include information on the schedule of activities for each chemical weapons destruction facility for the upcoming year. This schedule should identify the time required for design, construction or modification of the facility, installation of equipment, equipment check-out and operator training, destruction operations for each specific type of chemical weapon, scheduled periods of inactivity, and any other relevant activities which are planned to be carried out at the CWDF. The inclusive dates (month/year) for each activity which will occur during the upcoming year should be provided.

"Periods of inactivity" refers to planned interruptions in destruction operations such as facility decontamination when changing the type of chemical weapon which will be processed.

These declarations should be submitted not less than 60 days before each annual destruction period begins.

Form CWD 2.14 should be used for these declarations.

(f) Supplementary Information for Each CWDF

The Supplementary Information for each chemical weapons destruction facility to be provided as part of the Detailed Annual Plan for destruction of chemical weapons should, *inter alia*, include the following elements:

- (i) Changes and revisions to the General Destruction Plan;

- (ii) Site diagram;
- (iii) Facility, process, piping and instrumentation design drawings;
- (iv) Detailed technical descriptions of the equipment required for the destruction process;
- (v) Detailed technical description of the destruction process;
- (vi) Detailed description of any temporary holding area(s) at the facility;
- (vii) Detailed technical description and design drawings of the methods adopted to facilitate inspection;
- (viii) Detailed description of the living quarters and working premises for the inspectors;
- (ix) Detailed description of safety and medical measures in force at the facility;
- (x) Plant operating manuals, safety and medical plans;
- (xi) Laboratory operations, quality assurance and control manuals and environmental permits; and
- (xii) suggested measures for international verification.

The Supplementary Information for each chemical weapons destruction facility is to be attached to the forms, with the reference number of each attachment listed on the form itself. Additional explanation of each element follows.

(i) Changes and revisions to the General Destruction Plan

Changes and revisions to the General Plan for destruction of chemical weapons should be provided as appropriate.

(ii) Site diagram

A detailed site diagram for each chemical weapon destruction facility and any changes to previously submitted diagrams should be provided. The site diagram should be produced in accordance with the site diagram explanation given in Section 3.2 of this document. It should also include the geographical co-ordinates, to the nearest second, of the structure housing the destruction process (centre of mass).

(iii) Facility, process, piping and instrumentation design drawings

Design drawings should show sufficient detail to enable the Technical Secretariat to make a proper assessment of the destruction process.

(iv) Detailed technical descriptions of the equipment required for the destruction process

Design drawings and instrument specifications for the major items of equipment used in the draining, chemical destruction and munition destruction processes should be supplied. The detail should be sufficient to enable the Technical Secretariat to make a proper assessment of the destruction process.

(v) Detailed technical description of the destruction process

The detailed technical description of the destruction process should include flow diagrams showing flow rates of the principal materials, pressures and temperatures throughout the system and details of the destruction efficiency.

(vi) Detailed description of any temporary holding area(s) at the facility

The detailed description of any temporary holding area(s) at the facility should include a site diagram of the temporary holding area(s) as described in Section 3.2. This site diagram should additionally show the exact location within the facility where the holding area(s) are, details of function, capacity, storage methods and specialised features including, *inter alia*, ventilation and monitoring.

(vii) Detailed technical description and design drawings of the methods adopted to facilitate inspection

The methods adopted to facilitate inspection include, *inter alia*, location of sampling points, instrumentation, and surveillance cameras.

(viii) Detailed description of the living quarters and working premises for the inspectors

Include an annotated floor plan showing size and functions of the rooms to be provided for the inspectors. Include a brief description of facilities and services available.

(ix) Detailed description of safety and medical measures in force at the facility

Include copies of the relevant parts of the facility's health and safety regulations and procedures.

(x) Plant operating manuals, safety and medical plans

Include copies of the facility's plant operating manuals, safety and medical plans.

(xi) Laboratory operations, quality assurance and control manuals and environmental permits

Provide copies of the laboratory operations, quality assurance and control manuals and environmental permits.

(xii) Suggested measures for international verification

Provide details of any site plans or provisions aimed at enabling the facility readily to demonstrate compliance with the Convention.

These declarations should be submitted not less than 60 days before each annual destruction period begins.

Form CWD 2.15 should be used for these declarations.

(g) Products of destruction and their methods of ultimate disposal

Each facility, as part of the Detailed Annual Plan should provide information on the products of destruction of chemical weapons at that facility and the methods of their ultimate disposal. This information should include the description of the chemical involved (common name, chemical name, structural formula and CAS registry number, if assigned) along with the percentage of the total waste stream which the chemical makes up, and the method of ultimate disposal. The proposed method of ultimate disposal should be described in detail for each product of the destruction process.

2.4 Annual Reports on Destruction

The State Party should submit to the Technical Secretariat an Annual Report on destruction of chemical weapons not later than 60 days after each annual destruction period ends. The Annual Report should encompass all stocks which were destroyed during the previous annual destruction period and should contain information at both the National level and for each facility. The Annual Report should specify the following information.

(a) National Primary Information

The National Primary Information to be provided as part of the Annual Report for destruction of chemical weapons includes the name of the State Party, the date the State Party submitted the Report to the Technical Secretariat, and whether the State Party destroyed chemical weapons during this annual destruction period. If the State Party did destroy chemical weapons, the Categories of chemical weapons which the Annual Report covers should be indicated. The Categories to be used are the following:

Category 1: Chemical weapons on the basis of Schedule 1 chemicals and their parts and components;

Category 2: Chemical weapons on the basis of all other chemicals (including chemicals for use as chemical weapons not listed in the Schedules in the Annex on Chemicals) and their parts and components;

Category 3: Unfilled munitions and devices, and equipment specially designed for use directly in connection with the employment of chemical weapons.

These declarations should be submitted not later than 60 days after each annual destruction period ends.

Form CWD 3.0 should be used for these declarations.

(b) National Information

The National Information to be provided as part of the Annual Report on destruction of chemical weapons should include information on each chemical weapons destruction facility, reasons for not meeting destruction goals, if appropriate, and any corrective actions taken, and assessment of any possible impact that might have on the ability to meet CW destruction milestones.

For each existing or planned chemical weapons destruction facility, the following information should be provided:

- (i) Facility Code as describe in Annex A to this document;
- (ii) Name of the facility; if a mobile destruction process is to be used, name of the destruction site should be provided;
- (iii) Mailing address of the facility;
- (iv) Geographical co-ordinates, to the nearest second, of the centre of the structure housing the destruction process; for sites which will use a mobile destruction process, the centre of the proposed destruction site should be provided; for planned facilities, co-ordinate should be as near as practical; and
- (v) Start and completion dates for chemical weapons destruction.

Reasons for not meeting destruction goals and any corrective action taken should be detailed and presented in a narrative form.

If the destruction goals are not met, than an assessment of any impact that might have on the ability to meet chemical weapons destruction milestones should be detailed and presented in a narrative form.

The start and completion date for chemical weapons destruction should be given in a month/year format.

These declarations should be submitted not later than 60 days after each annual destruction period ends.

Form CWD 3.1 should be used for these declarations.

(c) Actual amounts of CW Destroyed

The Annual Report should include a National summary of the actual amounts of chemical weapons destroyed during the annual period.

Each State Party should provide all available relevant information in accordance with the Annex on Chemicals and the following Categories.

Category 1: Chemical weapons on the basis of Schedule 1 chemicals and their parts and components;

Category 2: Chemical weapons on the basis of all other chemicals (including chemicals for use as chemical weapons not listed in the Schedules in the Annex on Chemicals) and their parts and components;

Category 3: Unfilled munitions and devices, and equipment specially designed for use directly in connection with the employment of chemical weapons.

For Category 1 and Category 2 chemical weapons, toxic chemicals and precursors, common and chemical names should be provided. For Category 3 chemical weapons, the approximate number of units and their aggregate nominal fill volume (m^3), as appropriate, should be provided.

These declarations should be submitted not later than 60 days after each annual destruction period ends.

Forms CWD 3.2, 3.3, 3.4, 3.5, 3.6, 3.7, 3.8 and 3.9 should be used for these declarations.

(d) Facility Level Information

The Annual Report should include information on the types and approximate quantities of Chemical Weapons, and the type (e.g., nerve agent or blister agent) and approximate quantity of chemical fill to be destroyed at each existing or planned chemical weapons destruction facility. This information should be provided for each Category for the previous annual destruction period.

Category 1 and Category 2 chemical weapons should be identified by common name, chemical name, and type, e.g. munition, sub-munition, device and piece of equipment, bulk container and other containers. For Category 3 chemical weapons, the approximate number of units and their aggregate nominal fill volume (m³), as appropriate, should be provided.

The start and completion date for chemical weapons destruction should be given in a day/month/year format.

These declarations should be submitted not later than 60 days after each annual destruction period ends.

Forms CWD 3.10, 3.11, 3.12 and 3.13 should be used for these declarations.

3. **Definitions and Explanations to be Referred to in Relation to Submission of the Required Forms**

3.1 **Definitions**

The following additional Chemical Weapons Convention definition is important when filling out the forms.

- (a) **Tonne. Tonne** is defined as metric ton, i.e. 1,000 kg. (VA Part I, 26)

3.2 **Specific explanations**

- (a) Binary chemical weapons

Binary chemical weapons should be declared under the relevant end-product within the framework of the Categories of chemical weapons defined in this Section. For binary chemical weapons, the projected quantity of the toxic end-product is to be calculated on a stoichiometric basis from the key component, assuming a 100 per cent yield.

- (b) Bulk Containers

Bulk Containers refers to items that are used for storage or transportation of toxic chemicals. For chemicals stored in **bulk containers** the percentage purity of the chemical should be declared as accurately as practicable, if known.

(c) Categories

The **Categories** of chemical weapons, which are specified in VA Part IV (A), Paragraph 16, are the following:

Category 1: Chemical weapons on the basis of Schedule 1 chemicals and their parts and components;

Category 2: Chemical weapons on the basis of all other chemicals and their parts and components;

Category 3: Unfilled munitions and devices, and equipment specially designed for use directly in connection with the employment of chemical weapons.

(d) Chemical code

A unique **chemical code** should be assigned to each chemical listed on the forms. The chemical code should remain consistent throughout the forms. The code may be a simple ordinal number scheme, if desired.

(e) Chemical name

The **chemical names** used on the form should be in accordance with current International Union of Pure and Applied Chemistry (IUPAC) nomenclature.

(f) Chemical weapons

For the purposes of the Chemical Weapons Convention, **Chemical Weapons** means the following, together or separately:

(a) Toxic chemicals and their precursors, except where intended for purposes not prohibited under this Convention, as long as the types and quantities are consistent with such purposes;

(b) Munitions and devices, specifically designed to cause death or other harm through the toxic properties of those toxic chemicals specified in subparagraph (a), which would be released as a result of the employment of such munitions and devices;

(c) Any equipment specifically designed for use directly in connection with the employment of munitions and devices specified in subparagraph (b).

(g) Chemicals

Information about each **chemical** defined as a Chemical Weapon for the purposes of the Chemical Weapons Convention should be submitted to the Technical Secretariat both in the national summary forms and in applicable facility formats. **Chemicals** should be identified by chemical name in accordance with current International Union of Pure and Applied Chemistry (IUPAC) nomenclature, structural formula and Chemical Abstracts Service (CAS) registry number, if assigned.

(h) Chemicals not listed in the Schedules

For **chemicals not listed in the Schedules** in the Annex on Chemicals but which may be used as chemical weapons, the information required for possible assignment of the chemicals to the appropriate Schedule should be provided.

(i) Common name

The **common name** of a chemical is any name generally used for military, business or commercial purposes.

- (j) Devices
Devices refers to items (both unitary and binary) that use non-explosive means to disseminate a toxic chemical
- (k) Equipment
Equipment refers to items that are part of a chemical weapons delivery system but do not actually contain toxic chemicals or precursors.
- (l) Facility code
A unique **facility code** which refers to the particular chemical weapons destruction facility should be included on the relevant forms. The code should include the three digit State Party code, followed by the code for type of form being submitted (e.g. CWD for Chemical Weapons Destruction) followed by a unique ordinal number generated by the State Party submitting the form. The facility code for a given facility should remain constant and should be used for all forms, that is the General Plan, all Detailed Annual Plans, and all Annual Reports.
- (m) Mixture of Chemicals
A **Mixture of Chemicals** is any mixtures of two or more toxic chemicals. When declaring a **mixture of chemicals**, each chemical should be identified and the mixture should be declared under the Category of the most toxic chemical.
- (n) Munitions
Munitions are items (unitary, binary, cluster unitary or cluster binary filling) that directly or indirectly utilise an explosive to disseminate a toxic chemical
- (o) National Summary Forms
Aggregate quantities of each chemical declared on the **National Summary forms** should be declared as accurately as possible and should be rounded up to the nearest one tonne.
- (p) National Summary of Actual Amounts of CW Destroyed Forms
Aggregate quantities of each chemical declared on the **National Summary of Actual Amounts of CW destroyed forms** should be declared as accurately as possible and should be rounded up to the nearest one tonne.
- (q) Other Containers
Other Containers refers to items that, filled or unfilled with toxic chemicals, are designed directly for use in the employment of munitions or devices.
- (r) Phase
The **phase** of the chemical weapons destruction activities of a State Party depend upon the number of years which have elapsed since entry into force of the Chemical Weapons Convention. The first three years after entry into force are **Phase 1**. From three years until five years after entry into force is **Phase 2**. From five years until seven years after entry into force is **Phase 3**. And from seven years until ten years after entry into force is **Phase 4**.
- (s) Site diagram
A detailed **site diagram** for each facility should be attached showing:
- (i) a clearly identified declared perimeter;

- (ii) roads, fences, railroads, rivers, and any other significant geographical features in the vicinity of the facility;
 - (iii) the location of all buildings, bunkers, and temporary storage areas within the declared perimeter, with building/structure numbers, and an indication of the purpose of each. All buildings, bunkers and temporary storage areas within the declared perimeter that are not related to chemical weapons destruction should be so annotated. The purpose of each building, bunker and temporary storage area may be included in an attachment to the site diagram;
 - (iv) an arrow indicating true north;
 - (v) a legend explaining any abbreviations along with the scale used; and
 - (vi) all entrances/exits to the facility.
- (t) Sub-munitions
Sub-munitions refer to both unitary or binary components, either contained or for use as separate elements within munitions or devices that utilise directly or indirectly an explosive to disseminate a toxic chemical.
- (u) Toxicity
Toxicity should be reported in Lct50 or LD50 as applicable.
- (v) Type of Chemical Weapons
The **types of chemical weapons** to be included on the forms include munitions, sub-munitions, devices, equipment, bulk containers and other containers.
- (w) Weight
The **weight** measure used for declaring the nominal weight of fill for each item is kilograms.
The **weight** is to be declared:
- (i) Total quantities in a facility of each declared chemical to be destroyed weighing more than 10 tonnes shall be rounded to the nearest 1 tonne;
 - (ii) Total quantities in a facility of each declared chemical to be destroyed weighing more than 1 tonne but less than 10 tonnes shall be rounded to the nearest 0.1 tonnes;
 - (iii) Total quantities in a facility of each declared chemical to be destroyed weighing more than 0.1 tonnes but less than 1 tonne shall be rounded to the nearest 10 kilograms; and
 - (iv) Total quantities in a facility of each declared chemical to be destroyed weighing less than 0.1 tonnes shall be rounded to the nearest 1 kilogram.

FORMS AND INSTRUCTIONS FOR THEIR COMPLETION

ANNEX A**FORMS AND INSTRUCTIONS FOR THEIR COMPLETION**

1. **Names of Countries** are to be declared using the appropriate code ISO 3166 as contained in **Appendix 1**.
2. **Dates** are to be given as DD-**MMM**-YYYY (e.g., 31-OCT-2000). **Months** are to be declared as **MMM** (e.g., JAN), **Years** as YYYY (e.g., 1994).
3. **Yes-No Questions** must always be answered.
4. **Chemicals** shall be identified by chemical name in accordance with current International Union of Pure and Applied Chemistry (IUPAC) nomenclature, structural formula and Chemical Abstracts Service registry number, if assigned. For a precursor, the toxicity and identity of the principal final reaction product(s) shall be provided.
5. **Quantities** (e.g. total quantities in a facility of each declared chemical) should be precise to:
 - (a) for more than 10 tonnes, rounded to the nearest 1 Tonne;
 - (b) for less than 10 tonnes and more than 1 tonne, rounded to the nearest 0.1 tonnes;
 - (c) for less than 1 tonne and more than 0.1 tonnes, rounded to the nearest 0.01 tonne (10 kilograms);
 - (d) for less than 0.1 tonnes, rounded to the nearest 0.001 tonne (1 kilogram)
6. **Geographical co-ordinates** are to be declared to the nearest second according to the following formats:
 - (a) Latitude: 00 (degree)/00(minute)/00(second)/0(North or South)
Example: "55/45/28/N"
 - (b) Longitude: 000 (degree)/00(minute)/00(second)/0(East or West)
Example: "005/32/53/E"
7. **Attachments**, if any, are to be identified by unique labels or file names.
8. **Changes** to those parts of the annual declaration that would not normally be expected to change from year to year, such as the name, address and location of facilities, should be communicated to the Technical Secretariat on the next occasion upon which a declaration is due. Otherwise, subsequent declarations should identify these facilities by TS code but are not required to repeat information already previously declared.
9. Many of the forms contain **selection boxes** at the top of the form. For these selection boxes, only one selection may be made for any particular form, with an additional form(s) necessary if the State Party needs to provide information of more than one type.

[Please attach and enter title and reference number of attachments]

3. ASSESSMENT OF ANY IMPACT ON THE ABILITY TO MEET CW DESTRUCTION MILESTONES

[Please attach and enter title and reference number of attachments]

⁶¹ For a description of the information to be contained in this attachment, see paragraph 2.4 of Section H

⁶² Must be the same as in the General Plan.

FORM CWD 3.2⁶³: ANNUAL REPORT: NATIONAL SUMMARY OF ACTUAL AMOUNTS OF CATEGORY 1 CW DESTROYED

Annual Destruction Period _____ Year after EIF _____

PLEASE SELECT ONE
Phase 1 _____
Phase 2 _____
Phase 3 _____
Phase 4 _____

CHEMICAL CODE	COMMON MILITARY DESIGNATION	CHEMICAL NAME	CAS REGISTRY NUMBER	APPROXIMATE QUANTITY OF CHEMICAL (MT)	START AND COMPLETION DATES FOR CW DESTRUCTION

⁶³ Use format for each annual destruction period and for each toxic chemical.

**FORM CWD 3.3⁶⁴: ANNUAL REPORT: NATIONAL SUMMARY OF ACTUAL AMOUNTS OF
CATEGORY 1 CW DESTROYED (MIXTURES OF CHEMICALS)**

Annual Destruction Period _____
Year after EIF ____

PLEASE SELECT ONE
Phase 1 _____
Phase 2 _____
Phase 3 _____
Phase 4 _____

CHEMICAL CODE	COMMON MILITARY DESIGNATION	CHEMICAL NAME	CAS REGISTRY NUMBER	APPROXIMATE QUANTITY OF CHEMICAL (MT)	START AND COMPLETION DATES FOR CW DESTRUCTION
	MOST TOXIC CHEMICAL				
	OTHER TOXIC				

⁶⁴ Use format for each annual destruction period and for each mixture of chemicals.

FORM CWD 3.4⁶⁵: ANNUAL REPORT: NATIONAL SUMMARY OF ACTUAL AMOUNTS OF CATEGORY 1 CW DESTROYED (CHEMICALS FOR BINARY AND/OR MULTI-COMPONENT CW)

Annual Destruction Period _____
 Year after EIF _____

PLEASE SELECT ONE
 Phase 1 _____
 Phase 2 _____
 Phase 3 _____
 Phase 4 _____

CHEMICAL CODE	COMMON MILITARY DESIGNATION	CHEMICAL NAME	CAS REGISTRY NUMBER	APPROXIMATE QUANTITY OF CHEMICAL (MT)	START AND COMPLETION DATES FOR CW DESTRUCTION
	KEY COMPONENT				
	OTHER COMPONENT				

⁶⁵ Use format for each annual destruction period and for each binary and/or multi-component system.

FORM CWD 3.5⁶⁶: ANNUAL REPORT: NATIONAL SUMMARY OF ACTUAL AMOUNTS OF CATEGORY 2 CW DESTROYED

Annual Destruction Period _____ Year after EIF ____
--

CHEMICAL CODE	COMMON MILITARY DESIGNATION	CHEMICAL NAME	CAS REGISTRY NUMBER	APPROXIMATE QUANTITY OF CHEMICAL (MT)	START AND COMPLETION DATES FOR CW DESTRUCTION

⁶⁶ Use format for each annual destruction period and for each toxic chemical.

FORM CWD 3.6⁶⁷: ANNUAL REPORT: NATIONAL SUMMARY OF ACTUAL AMOUNTS OF CATEGORY 2 CW DESTROYED (MIXTURES OF CHEMICALS)

Annual Destruction Period _____ Year after EIF _____

CHEMICAL CODE	COMMON MILITARY DESIGNATION	CHEMICAL NAME	CAS REGISTRY NUMBER	APPROXIMATE QUANTITY OF CHEMICAL (MT)	START AND COMPLETION DATES FOR CW DESTRUCTION
	MOST TOXIC CHEMICAL				
	OTHER TOXIC				

⁶⁷ Use format for each annual destruction period and for each mixture of toxic chemicals.

FORM CWD 3.7⁶⁸: ANNUAL REPORT: NATIONAL SUMMARY OF ACTUAL AMOUNTS OF CATEGORY 2 CW DESTROYED (CHEMICALS FOR BINARY AND/OR MULTI-COMPONENT CW)

Annual Destruction Period _____
Year after EIF ____

CHEMICAL CODE	COMMON MILITARY DESIGNATION	CHEMICAL NAME	CAS REGISTRY NUMBER	APPROXIMATE QUANTITY OF CHEMICAL (MT)	START AND COMPLETION DATES FOR CW DESTRUCTION
	KEY COMPONENT				
	OTHER				

⁶⁸ Use format for each annual destruction period and for each binary and/or multi-component system.

FORM CWD 3.8⁶⁹: ANNUAL REPORT: NATIONAL SUMMARY OF ACTUAL AMOUNTS OF CATEGORY 3 CW DESTROYED

PLEASE SELECT ONE
 Munitions _____
 Sub-munitions _____
 Devices _____
 Other Containers _____

Annual Destruction Period _____
 Year after EIF _____

TYPE	COMMON MILITARY DESIGNATION	SIZE/CALIBRE	APPROXIMATE NUMBER OF UNITS	APPROXIMATE AGGREGATE FILL VOLUME (M ³) ⁷⁰	START AND END DATES OF DESTRUCTION

⁶⁹ Use format for each annual destruction period.

⁷⁰ Nominal fill volume.

FORM CWD 3.9⁷¹: ANNUAL REPORT: NATIONAL SUMMARY OF ACTUAL AMOUNTS OF CATEGORY 3 DESTROYED (EQUIPMENT SPECIFICALLY DESIGNED)⁷²

Annual Destruction Period _____
Year after EIF _____

TYPE	DESCRIPTION	APPROXIMATE NUMBER OF UNITS	START AND END DATES OF DESTRUCTION

⁷¹ Use format for each annual destruction period.

⁷² Equipment specifically designed for use directly in connection with the employment of munitions, sub-munitions, devices, and equipment defined as chemical weapons to be destroyed.

FORM CWD 3.10⁷³: ANNUAL REPORT: FACILITY REPORT OF CATEGORY 1/ CATEGORY 2 CW DESTROYED

Facility code _____

Annual Destruction Period _____
Year after EIF _____

PLEASE SELECT ONE
Category 1 ____ Category 2 ____

Chemical code⁷⁴ _____

PLEASE SELECT ONE
munitions __ sub-munitions __
devices ____ containers ____ other containers ____

TYPE	COMMON MILITARY DESIGNATOR	SIZE/ CALIBRE	NOMINAL WEIGHT OF CHEMICAL FILL PER ITEM	APPROXIMATE QUANTITY OF CW DESTROYED	START AND END DATES OF DESTRUCTION ⁷⁵

⁷³ This format shall be used for each facility, for each annual period and for each chemical.

⁷⁴ Chemical code must be the same as in the General Plan.

⁷⁵ For each specific type of chemical weapon

FORM CWD 3.11: ANNUAL REPORT: FACILITY REPORT OF CATEGORY 1/ CATEGORY 2 CW DESTROYED (EQUIPMENT)⁷⁶

Facility code _____

Annual Destruction Period _____
Year after EIF ____

PLEASE SELECT ONE
Category 1 ____ Category 2 ____

Chemical code _____

TYPE	COMMON MILITARY DESIGNATOR	PURPOSE	LOCATION OF EQUIPMENT WITHIN THE MUNITION OR DEVICE	APPROXIMATE QUANTITY OF EQUIPMENT DESTROYED	START AND END DATES OF DESTRUCTION ⁷⁷

⁷⁶ Parts or components of munitions of Category 1 chemical weapons.

⁷⁷ For each specific type of chemical weapon

FORM CWD 3.12⁷⁸: ANNUAL REPORT: FACILITY REPORT OF CATEGORY 3 CW⁷⁹ DESTROYED

Facility code _____

Annual Destruction Period _____
Year after EIF _____

PLEASE SELECT ONE
munitions __ sub-munitions __
devices ____ other containers ____

TYPE	COMMON MILITARY DESIGNATOR	SIZE/CALIBRE	APPROXIMATE NUMBER OF UNITS	APPROXIMATE AGGREGATE FILL VOLUME (M ³) ⁸⁰	START AND END DATES OF DESTRUCTION ⁸¹

⁷⁸ This format shall be used for each facility, for each annual period.
⁷⁹ Unfilled munitions, devices and equipment specifically designed for use directly in connection with employment chemical weapons.
⁸⁰ Nominal fill volume.
⁸¹ For each specific type of chemical weapon

FORM CWD 3.13⁸²: ANNUAL REPORT: FACILITY REPORT OF CATEGORY 3 CW DESTROYED (EQUIPMENT SPECIFICALLY DESIGNED)⁸³

Facility code _____

Annual Destruction Period _____
Year after EIF ____

TYPE	COMMON MILITARY DESIGNATOR	PURPOSE	LOCATION OF EQUIPMENT WITHIN THE MUNITION OR DEVICE	APPROXIMATE NUMBER OF UNITS	START AND END DATES OF DESTRUCTION ⁸⁴

⁸² This format shall be used for each facility, for each annual period.
⁸³ For use directly in connection with the employment of munitions, sub-munitions, devices, and equipment defined as chemical weapons.
⁸⁴ for each specific type of chemical weapon
