**Subject: Request for Assistance and Protection under Article X, paragraph 8 of the Chemical Weapons Convention**

*Excellency,*

For more than a quarter of a century, the Republic of Daniria has been subjected to an ever increasing and illegal series of subversive and terrorist attacks that have been inspired sponsored and conducted by the terrorist dictatorship of Barati and Kutan. We have sought support from the international community to help to stop these outrageous attacks against our sovereignty. Last year the African Union, with the full blessing of the United Nations Security Council, agreed to send a Monitoring Team to confirm once and for all the identity of the perpetrators of these outrages.

Finally, over the last 2 days, 6 and 7 October 2010 new levels of atrocity were conducted against the innocent civilian citizens of Daniria.

6 October 2010 - A coordinated series of 3 car bombs exploded in our capital city, killing some 50 men women and children and injuring hundreds more. Although, we do not have enough evidence, we think that this killing was supported by on of our neighbours.

7 October 2010, 15:30 hour's LOCAL time – our police intercepted a possible vehicle borne suicide bomber in the Regional Capital of Northern Province. The Danirian Government, together with international community, is organising a sport event to celebrate sport as a mean of peace. The Danirian government is concerned that Barati and even Kutan could use chemical weapons on Danirian territory or to provide crude chemical weapons or their components to the DLM separatist movement in the South of Daniria for the organization of terrorist acts during the sport event.

Daniria is a developing country and I want to underline that also a member to the CWC, but we have only limited resources. Our medical resources, national response system and infrastructure may be completely overwhelmed when it comes to a direct attack.
