NOTE BY THE TECHNICAL SECRETARIAT

**INFORMATION FOR NATIONAL AUTHORITIES OF STATES PARTIES ON
APPROVED INSPECTION EQUIPMENT FOR FAMILIARISATION PURPOSES**

1. In its decision on the list of approved inspection equipment with operational requirements and technical specifications, the Conference of the States Parties (hereinafter “the Conference”) at its Fifteenth Session requested the Director-General to establish an appropriate mechanism to assist the National Authorities in their familiarisation with approved equipment and its use (C-I/DEC.71*, dated 30 November 2010).
2. The Director-General wishes to draw the attention of the States Parties to the aforementioned decision (subparagraph (d) of Annex 1 to C-I/DEC.71*):

In order to satisfy the ISP¹ and to enable it to familiarise itself with all the operational characteristics concerned, the National Authority of each State Party should have access to each item of equipment contained in the list of approved equipment and how it is to be used in a sufficient amount of time prior to its use on the territory of the ISP. In case any State Party finds that it is denied such access to any item of equipment approved for inspection purposes, it has the right to deny permission for that item of equipment to be used on its national territory. The Director-General is requested to establish an appropriate mechanism to assist the National Authorities in their familiarisation with the approved equipment and its use.

3. In fulfilling the request, the Director-General has on many occasions invited National Authorities of the States Parties to familiarise themselves with newly procured items of approved inspection equipment (S/61/98, dated 16 July 1998; S/77/98, dated 23 September 1998; S/99/99, dated 18 March 1999; S/120/99, dated 11 June 1999; S/146/99, dated 10 November 1999; S/254/2001, dated 20 April 2001; S/258/2001, dated 8 May 2001; S/324/2002, dated 14 November 2002; S/436/2004, dated 2 July 2004, and Corr.1, dated 4 August 2006; S/464/2005, dated 2 February 2005; S/533/2005, dated 29 November 2005; S/580/2006, dated 19 July 2006; S/644/2007, dated 12 June 2007; S/679/2008, dated 22 February 2008; S/690/2008, dated 18 April 2008; S/722/2008, dated 10 December 2008; S/744/2009, dated 11 March 2009; S/774/2009, dated 18 June 2009; S/800/2009, dated

The Director-General has also made an information package on approved inspection equipment available to National Authorities for familiarisation purposes (S/129/99, dated 1 July 1999).

4. To further assist National Authorities in the familiarisation process, the Director-General provided National Authorities with a consolidated list of approved inspection equipment in use by the Technical Secretariat (hereinafter “the Secretariat”) for inspection/verification purposes. As the previous consolidated list (S/1375/2016) dates from April 2016, the Secretariat prepared an updated version, consistent with C-I/DEC.71*. The updated list is annexed to this Note.
5. The Director-General invites National Authorities interested in familiarising themselves with approved inspection equipment and how it is used to contact Mr Marc van Dyck, Head of the Operations and Planning Branch of the Secretariat, at +31 (0)70 416 3361, in order to make the appropriate arrangements.

Annex: Consolidated List of Approved Inspection Equipment Purchased by the Technical Secretariat for Inspection/Verification Purposes (Status as at 11 February 2020)
