NOTE BY THE TECHNICAL SECRETARIAT

ANALYTICAL SKILLS DEVELOPMENT COURSE
FOR MEMBER STATES OF THE OPCW IN THE LATIN AMERICA
AND CARIBBEAN REGION IN COLLABORATION WITH
THE LABORATORIO DE VERIFICACION DE ARMAS QUIMICAS
MADRID, SPAIN, 3 – 14 JUNE 2024

PURPOSE OF THE COURSE

1. The Technical Secretariat of the OPCW (the Secretariat) wishes to invite applicants
who are representatives of laboratories in Member States in the Latin America and
Caribbean region to attend an analytical chemistry course focusing on the analysis of
chemicals and related compounds relevant to the Chemical Weapons Convention (the
Convention). The course will be held at the Laboratorio de Verificación de Armas
Químicas (LAVEMA) of the Instituto Nacional de Técnica Aeroespacial (INTA) in
Madrid, Spain, from 3 to 14 June 2024.

2. The goal of the course is to improve participants’ practical skills in the analysis of
chemicals related to the Convention and in using gas chromatography (GC) and gas
chromatography-mass spectrometry (GC-MS). Participants will first be given an
introduction to the chemicals related to the Convention, sample preparation techniques,
and the theoretical aspects of GC, GC-MS, and high-performance liquid
chromatography–mass spectrometry (HPLC-MS). This will be followed by a
presentation on sample analysis using GC and HPLC equipment with different types of
detectors, as well as GC-MS equipment. A discussion will then take place on how to
interpret the mass spectra that have emerged as a result of the analyses. The participants
will also familiarise themselves with how to maintain these instruments in a manner
that ensures a high standard of performance. Finally, they will be instructed on how to
report these results, including the requirements of the OPCW in this regard. The skills
provided by the course may be used in the analysis of different types of environmental
samples containing various types of chemicals.

Content

3. The course will consist of the following elements:

(a) the preparation of environmental samples;

(b) the properties of chemicals related to the Convention;

(c) an introduction to GC, GC-MS, and HPLC-MS equipment;
(d) the interpretation of mass spectra;
(e) exercises on sample preparation;
(f) the use of GC, GC-MS, and HPLC-MS equipment;
(g) an introduction to the Convention and related compound synthesis;
(h) an introduction to AMDIS\(^1\) software;
(i) an introduction to the Quality Assurance System according to standard ISO/IEC 17025:2017;\(^2\) and
(j) the reporting of results during OPCW proficiency tests.

4. The course will accommodate a maximum of 15 participants from Member States in Latin America and the Caribbean. The Secretariat will select participants in consultation with LAVEMA and will notify the successful candidates, who will then receive an official invitation to participate from the Secretariat.

5. For all participants, the Secretariat will cover the costs of tuition, international travel, medical insurance, accommodation, and meals, and will provide a terminal allowance, as well as a daily allowance to cover incidental expenses, in accordance with OPCW rules. Tickets will be purchased directly by the Secretariat. When making international travel arrangements, the Secretariat will seek the most economical options. The Secretariat will not cover expenses unrelated to the course or those resulting from unauthorised changes to travel arrangements.

ADMISSION REQUIREMENTS

6. It is important to reiterate that analytical skills development courses offered by the OPCW are aimed at building analytical skills specific to chemicals relevant to the Convention.

7. Participants should:
   (a) hold a degree or diploma in chemistry or analytical chemistry from a recognised university or institution;
   (b) have at least three years of relevant practical and theoretical experience in analytical chemistry;
   (c) currently use GC and/or GC-MS equipment (or expect to do so in future); and
   (d) be citizens of Member States of the Latin America and the Caribbean region.

---

1 AMDIS = Automated Mass Spectral Deconvolution and Identification Software.
8. The course will be conducted in Spanish and no interpretation services of any kind will be provided. Participants are therefore expected to have a good command of both written and spoken Spanish.

SELECTION PROCEDURE

9. Applications will be carefully screened on the basis of the criteria specified in paragraphs 7 and 8 above. The Secretariat may decide to interview applicants. Applicants who have already participated in similar OPCW courses will not be considered for this course.

APPLICATION PROCEDURE

10. Interested candidates are invited to submit their applications through Eventus—the OPCW event management system (https://eventus.opcw.org/). Applicants must first create an account and then register for the event. Each application must be endorsed digitally in the Eventus platform by the respective National Authority or Permanent Representation of the applicant’s country to the OPCW. Only nominations endorsed by the National Authority or Permanent Representation may be considered. Member States and National Authorities are strongly encouraged to support and endorse applications from suitable female candidates for the event.

11. Applications must be accompanied by the following:

(a) a curriculum vitae;

(b) a photocopy of the personal identification pages of the candidate’s passport;

(c) a one-page description of the candidate’s practical experience; and

(d) a letter of recommendation from the supervisor of the candidate at his or her institution addressing the candidate’s qualifications in line with paragraphs 7 and 8 above and attesting the relevance of the course to the work of the institution.

12. Applications must be submitted to the Secretariat no later than 29 March 2024. Incomplete or improperly completed applications cannot be considered.

13. Additional information may be obtained from the International Cooperation Branch of the International Cooperation and Assistance Division of the OPCW via email (icb@opcw.org) or telephone (Ms Julia González Rodríguez: +31 (0)70 416 3239 or Mr Roman Warchol: +31 (0) 70 416 3463).
