

Mr. Mohammad Reza Hajipour

**Association for the Defence of Chemical Injuries in the Fars Province
(SCWVSF), Iran**

**Presentation to the 21st CWC Conference of States Parties (CSP)
Organization for the Prohibition of Chemical Weapons
The Hague, Netherlands
28 November – 2 December 2016**

In the Name of God

Mister Chairman, Director-General, Distinguished Delegates, CWC Coalition Colleagues, Ladies and Gentlemen:

I am involved in a lawsuit brought by my tired and broken brethren to enjoy the peace, for which I have been waiting for several years. I am an advocate for peace and friendship, and the son of liberty and freedom. I am like a surge struck by the storm in the throes of oppression, and a victim of chemical weapons that have robbed the beauty and freshness of my life.

Now my broken wings and injured breast due to chemical weapons are evidence that I have been suffering from those weapons.

Have you ever seen the agony of peace and friendship flowers? Have you ever noticed the friendship and peace dove with wounded wings on the field of unequal battle and fight? Have you ever heard the voice of a man in great pain caused by chemical bombs?

We are Iranians injured and victims of chemical weapons who suffer from incurable wounds and have been broken in the storm of the injustice in the world. We are lashed flowers whose only guilt was peace and friendship. Our only sin was being alive. It is the right of all people in the world to experience life at the highest level of comfort and love. So why has our soil been contaminated by chemical bombs? Why is the sky burning with chemical bombs fever created by the thoughts of a few evil human beings? Why should the injured seas be contaminated by the lethal toxins of chemical bombs?

Oh, you liberal people, rush to help life! Listen to the painful singing of a wounded bird. Now we Iranians invite you, the people of the world, to unite and build a free and prosperous world, free from any and all types of chemical and biological weapons.

Long live peace, friendship, and tranquility. Down with war and sedition.

Today, on behalf of a large number of victims of chemical weapons in the Islamic Republic of Iran who will be the victims of chemical weapons for ever, we declare our opposition to violence of any type.

We hope these conferences and treaties will lead to the complete elimination of chemical and mass destruction weapons from human society, and all people will settle their disagreements between them through negotiation and diplomacy and live in peace.

We send best wishes to you all from our Association for Defending the Rights of the Injured and Victims of Chemical Weapons in the Fars Province (SCWVSF) of Iran.

Thank you for your kind attention, and I wish this statement to be made part of the final CSP record and posted on the external server and website.

December 2016
