INDICATIVE LISTS¹

**Categories of Information on Assistance
that Could Be Made Available by States Parties**

The purpose of the indicative lists is twofold. On the one hand they are intended to serve States Parties as a guideline when preparing information on the assistance being offered in accordance with Article X, subparagraphs 7 (b) and (c), including the annexes to the Agreement in accordance with subparagraph 7 (b). On the other hand they define the categories of information to be included in the database on assistance which would enable the Technical Secretariat, whenever assistance is requested, to quickly determine what relevant assistance might be made available and the source of that assistance.

List 1 - Categories of Information on Equipment

1. Name of State Party.
2. Date of provision or update of the information.
3. Function of the equipment, described in terms used in the list of functions below.
4. Name, number or other designation of the equipment. Use if possible the standard nomenclature of the State Party or of the manufacturer.
5. Brief description of the purpose(s) for which the equipment can be used, including limitations on its use.
6. Number or quantity that can be made available.
7. Estimated remaining useful shelf-life in years. If several batches exist with differing remaining shelf-life, indicate for each batch or group of batches size and remaining shelf-life.
8. Time required for preparations before the equipment could be dispatched, provided that transportation was available.

¹ Contained in PC-VII/B/WP.6, Annex B.

9. Transportation information
 - 9.1 Number or quantity in each transportation unit package
 - 9.2 Size and weight of transportation unit package
 - 9.3 Requirements for international transportation if not provided by the Assisting State Party
