'On Zone Planning and the Building Code' (Building Act), as amended, the Small Businesses Act No. 455/1991 Coll., as amended, and the Penal Code Act No. 140/1961 Coll., as amended" (hereinafter "the Act"), hereby decrees as follows:

§ 1

In accordance with the classification under § 7 of the Act scheduled chemicals shall be listed in individual Schedules as follows:

a) highly dangerous chemicals in Schedule 1 appended hereto as Annex 1;
b) dangerous chemicals in Schedule 2 appended hereto as Annex 2;
c) less dangerous chemicals in Schedule 3 appended hereto as Annex 3.

§ 2

Highly dangerous chemicals listed in Schedule 1 may be handled in amounts set forth in § 8 section 2 of the Act for purposes identified in § 6 section 1 of the Act in the following facilities:

a) in a single dedicated low-capacity object with reactors in production lines not adapted to continuous operation, each reactor capacity not exceeding 100 litres and total capacity of all reactors not exceeding 500 litres,
b) in a single object serving protective purposes, where the overall production proper does not exceed 10 kg a year,
c) in objects serving research, medicinal, or pharmaceutical purposes where the overall production proper in such objects exceeds 100 g a year but does not exceed 10 kg a year per object,
d) in laboratories serving research, medicinal or pharmaceutical purposes where the overall production proper does not exceed 100 g a year per laboratory,

e) in other objects serving research purposes that do not manufacture highly dangerous chemicals.

§ 3

The Reporting Duty under § 20 section 1 of the Act refers to the amounts of dangerous chemicals specified below:

a) more than 1 kg of dangerous chemicals marked by (*) in Schedule 2 Part A,
b) more than 100 kg of the remaining dangerous chemicals listed in Schedule 2 Part A,
c) more than 1000 kg of the remaining dangerous chemicals listed in Schedule 2 part B.

§ 4

Scheduled chemicals shall be recorded in classification per Annex 4 hereof.

§ 5
