NOTE BY THE DIRECTOR-GENERAL

INVITATION TO NATIONAL AUTHORITIES OF STATES PARTIES TO FAMILIARISE THEMSELVES WITH NEWLY PROCURED ITEMS OF APPROVED EQUIPMENT

1. The Technical Secretariat (hereinafter “the Secretariat”) wishes to inform States Parties that it has procured a number of additional items of inspection equipment that conform to the operational requirements and technical specifications approved by the Conference of the States Parties at its First Session (C-I/DEC.71 and Corr.1, both dated 23 May 1997). To meet operational needs, the Secretariat intends to start using these items 30 days after the date on which this Note is issued. Details on the items of equipment and their suppliers are listed in the Annex to this Note.

2. In this regard, the Director-General wishes to draw the attention of the States Parties to subparagraph (d) on page 3 of the Annex to the aforementioned decision:

“(d) the National Authority of each State Party should be able to access – in order to satisfy the inspected State Party and to enable it to familiarise itself with all the operational characteristics concerned – each item of equipment contained in the List of Approved Equipment and its use sufficiently prior to its use on the territory of the inspected State Party to ensure familiarity. In case any State Party finds that it is denied such access to any item of equipment approved for inspection purposes, it has the right to deny permission of that equipment for use on its national territory. The Director-General is requested to establish an appropriate mechanism to assist the National Authorities in their familiarisation with the approved equipment and its use.”

3. The Director-General accordingly invites National Authorities interested in familiarising themselves with the newly procured equipment and how it is used to contact Mr Julian Tangaere, Head of the Secretariat’s Operations and Planning Branch, at +31 (0)70 416 3361, in order to make the appropriate arrangements.

Annex:

List of Newly Procured Equipment and Supplier Details
### TABLE 1: NEWLY PROCURED EQUIPMENT

<table>
<thead>
<tr>
<th>Equipment Category and Generic Name of the Equipment, as Listed in C-I/DEC.71 and Corr.1, and C-9/DEC.5&lt;sup&gt;1&lt;/sup&gt;</th>
<th>Reference Document with Approved Changes to the Technical Specifications</th>
<th>Description of the New Equipment</th>
<th>Type/Model of the New Equipment</th>
<th>Supplier</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Portable Equipment</td>
<td>N/A</td>
<td>Mobile Fourier transformed-infrared spectrometer (FT-IR) with diamond attenuated total reflectance (ATR)</td>
<td>M-IR (Mobile infrared)</td>
<td>Bruker Optics B.V.</td>
<td>The new equipment is intended to replace Bruker’s Vector 22 FT-IR model.</td>
</tr>
<tr>
<td>(GC-MS)&lt;sup&gt;2&lt;/sup&gt; sample-preparation kit</td>
<td>EC-36/DEC.2&lt;sup&gt;4&lt;/sup&gt; EC-47/DEC.9&lt;sup&gt;3&lt;/sup&gt; EC-49/DEC.3&lt;sup&gt;5&lt;/sup&gt; EC-53/DEC.3&lt;sup&gt;6&lt;/sup&gt;</td>
<td>Fume hood</td>
<td>Captair Toxicap 1016A</td>
<td>VWR International B.V.</td>
<td>The figure A in the model number indicates a front opening of the trapezoid type. The new equipment is intended for use alongside other fume hoods of the Secretariat.</td>
</tr>
