**NOTE BY THE TECHNICAL SECRETARIAT**

**INVITATION TO APPLY FOR A BASIC ANALYTICAL CHEMISTRY COURSE  
UNDER THE  
PROGRAMME TO STRENGTHEN COOPERATION WITH AFRICA  
13 – 23 SEPTEMBER 2010**

**Purpose of the course**

1. The Technical Secretariat (hereinafter “the Secretariat”) wishes to inform Member States that it will hold a basic analytical chemistry course in 2010 under the Programme to Strengthen Cooperation with Africa. The course will be supported jointly by the Secretariat, Protechnik Laboratories, South Africa, and the Finnish Institute for the Verification of the Chemical Weapons Convention (VERIFIN) in Helsinki, Finland. The course itself will be held at the Protechnik Laboratories.
2. The course is intended for chemistry professionals from industry, government, or academia who are involved in the analysis, synthesis, or quality control of chemicals related to the Chemical Weapons Convention (hereinafter “the Convention”). The course will enable participants to gain a sound working knowledge of the principles, procedures, and applications of gas chromatography (GC) and gas chromatography-mass spectrometry (GC-MS) for the analysis of chemicals related to the Convention. The course will accommodate 12 participants.

**Duration of the course**

3. The course will be held from 13 to 23 September 2010. Successful candidates should be prepared to travel three or four days before the course begins in order to be able to register and complete pre-course formalities in a timely manner.

**Content**

4. The course will begin with the provision of basic training and hands-on experience in sample preparation, and with instruction in GC and GC-MS analytical techniques. This will include an explanation of the hardware involved, instrument testing and optimisation, basic maintenance, and trouble-shooting.

5. The second part of the course will focus on the preparation of environmental samples and on how to use GC and GC-MS for the analysis of samples of chemicals related to the Convention. During this segment, participants will be provided with intensive hands-on training in the handling of different sample matrices for subsequent analysis by GC with element-selective detectors and by GC-MS in electron ionisation and chemical-ionisation modes. Participants will be introduced to the principles of conducting such analyses, as well as to a range of extraction, clean-up, and derivatisation procedures. Aspects on the importance of quality control of analytical data, including the use of libraries, will also be covered.

### **Sponsorship**

6. The cost of the course, and of accommodation for all participants, will be covered by the Secretariat. In addition, the Secretariat will pay for international travel, visas, the provision of a daily subsistence allowance, and medical and travel insurance for all participants for the duration of the course.
7. Participants are requested to obtain any necessary visas, including travel visas, before travelling to South Africa. As noted above, the Secretariat will cover the costs of these visas by reimbursing participants upon production of the original receipts. The Secretariat will also send information to the selected participants on applying for South African visas.

### **Admission requirements**

8. Participants should:
  - (a) hold a degree or diploma in chemistry or analytical chemistry from a recognised university or institution;
  - (b) have at least three years of work experience in analytical chemistry or in other relevant fields;
  - (c) have experience working with either GC or GC-MS techniques; and
  - (d) be citizens of African Member States.
9. All course activities will be conducted in English, and no interpretation services of any kind will be provided. Participants are therefore expected to have a good command of the English language, both written and oral.
10. Participants will be required to sign both a set of terms and conditions for participation in the course and a confidentiality agreement with the OPCW.

### **Selection procedure**

11. Applications will be carefully screened on the basis of the criteria specified in paragraph 8 above. Only the most suitable applicants will be interviewed. Eligible

candidates from laboratories that have sought or are receiving support under the Laboratory-Assistance Programme are especially encouraged to apply.

### **Application procedure**

12. Applicants from laboratories in African Member States are invited to complete the application form that is included as the Annex to this Note, making sure in particular to provide all the contact details it requests.
