**REPORT OF THE THIRTY-SIXTH MEETING OF THE VALIDATION GROUP FOR
THE UPDATING OF THE OPCW CENTRAL ANALYTICAL DATABASE
6 AND 7 SEPTEMBER 2012**

1. The Validation Group (hereinafter “the Group”) met on 6 and 7 September 2012 to discuss the evaluation of new analytical data for possible inclusion in the OPCW Central Analytical Database (OCAD) and to consider matters related to it. Mr James Riches of the United Kingdom of Great Britain and Northern Ireland acted as Chairperson of the meeting.
 2. The evaluators for the analytical techniques evaluated new data and sent their written reports to the coordinators for each analytical technique. The names of the coordinators who were present at the meeting, along with the technique for which each is responsible, are listed below:

Gas chromatography (retention index) (GC(RI)) Mr Leo de Reuver (Netherlands) on behalf of
Mr Martin Söderström (Finland)

Mass spectrometry (MS) Mr Sten-Åke Fredriksson (Sweden)

Infrared spectroscopy (IR) Mr Armando Alcaraz (United States of America)

These coordinators provided an evaluation summary to the Group for discussion at the meeting. The evaluators finalised the evaluation of the analytical data and confirmed that the data approved is technically valid.

3. This report of the Group's Thirty-Sixth Meeting presents the sets of validated analytical data of scheduled chemicals (see Annex 1) that are to be forwarded to the Director-General for appropriate action. During the meeting, the Group also validated data relevant to non-scheduled chemicals (see Annex 2).
 4. The Technical Secretariat informed the Group that the data on scheduled chemicals validated by the Group at its previous meeting had been approved by the Executive Council at its Sixty-Ninth Session (EC-69/DEC.1, dated 11 July 2012).
 5. The Group noted that the number of members in both the GC(RI) and IR subgroups has decreased to the minimum that is required to attend meetings for evaluation of data. It is critical that these subgroups remain strong, and the Group urgently requests

the Member States to nominate technical experts to join the subgroups. All subgroup members are encouraged to evaluate data and attend the meetings.

6. The Group was informed that a new version of the OCAD (v15_2012) will be officially released in December 2012 and that a new version of the Validation Group Working Database (VGWD_2012) will also be available at the same time.
7. The Group discussed the submission of MS/MS (tandem-mass spectrometry) data. A set of LC (liquid chromatograph)-MS/MS data was submitted by Mr Jiri Cermak for consideration by the MS subgroup. The data was considered by the MS subgroup and it was agreed that the data will be submitted to all members of the Group for informal evaluation. It was also agreed that this subgroup, before the Thirty-Seventh Meeting, would also consider a system for collating this data. Mr James Riches, Mr Sten-Åke Fredriksson, and Mr Armando Alcaraz agreed to complete further MS/MS submissions by the next meeting.
8. The Group discussed some GC(RI) data provided by Mr Bedrich Uchytil. The data showed that the Rxi-5MS column used by the OPCW Laboratory is equivalent to the HP-5MS phase. The data also re-confirmed that RIs measured on the DB-5MS phase are different from those measured on the HP-5MS phase.
9. Current MS data submission practice applies a low-intensity ion cut off ($\leq 0.5\%$) to MS data. The Group was provided with an example where relevant ions from raw MS data (one that supported an unexplained ion in data submitted previously and a molecular ion) were rejected by the Group on the basis of the application of the low-intensity ion cut-off. The Group agreed that data without the cut-off application would be submitted to the MS subgroup on a trial basis before any decision to alter the data-evaluation procedures would be considered.
10. Approximately 150 MS spectra and GC(RI) analytical data are available for evaluation for the Thirty-Seventh Meeting. Available data from all techniques will be sent to the Group at least six weeks before the next scheduled meeting.
11. The next meeting is scheduled to take place on 12 and 13 March 2013. The evaluators agreed to send their written evaluation reports to the appointed coordinators no later than 26 February 2013. The evaluators have agreed to come to that meeting prepared to finalise the evaluation of the analytical data referred to in the previous paragraph.
12. The Group noted the resignation of Mr Bedrich Uchytil, who was thanked for his valuable and lasting contributions during 36 meetings of the Group.
13. Annex 3 to this report lists the evaluators.

Annexes:

- Annex 1: Lists of Approved Data Recommended for Inclusion in the OCAD
Annex 2: Lists of Approved Non-Scheduled Chemical Data Relevant to the Chemical Weapons Convention
Annex 3: List of Members of the Validation Group

Annex 1

**LISTS OF APPROVED DATA RECOMMENDED FOR INCLUSION
IN THE OCAD**

Note: In the last column of the tables that follow in this Annex, “A” means “accepted”; “B” means “accepted subject to minor corrections”.

TABLE 1: LIST OF APPROVED MS DATA OF SCHEDULED CHEMICALS

OPCW Code	Chemical Name	Schedule	Decision
07-2-3193	Methyl 2-dimethylaminoethyl methylphosphonate	2.B.04	A
07-2-3194	Methyl 2-diethylaminoethyl methylphosphonate	2.B.04	A
07-2-3195	Methyl 2-dipropylaminoethyl methylphosphonate	2.B.04	A
07-2-3196	Methyl 2-diisopropylaminoethyl methylphosphonate	2.B.04	A
07-2-3197	Ethyl 2-dimethylaminoethyl methylphosphonate	2.B.04	A
07-2-3198	Ethyl 2-diethylaminoethyl methylphosphonate	2.B.04	A
07-2-3199	Ethyl 2-dipropylaminoethyl methylphosphonate	2.B.04	A
07-2-3200	Ethyl 2-diisopropylaminoethyl methylphosphonate	2.B.04	A
07-2-3201	Propyl 2-dimethylaminoethyl methylphosphonate	2.B.04	A
07-2-3202	Propyl 2-diethylaminoethyl methylphosphonate	2.B.04	A
07-2-3203	Propyl 2-dipropylaminoethyl methylphosphonate	2.B.04	A
07-2-3204	Propyl 2-diisopropylaminoethyl methylphosphonate	2.B.04	A
07-2-3205	Isopropyl 2-dimethylaminoethyl methylphosphonate	2.B.04	A
