NOTE BY THE TECHNICAL SECRETARIAT

**INVITATION TO APPLY FOR A REGIONAL COURSE FOR ANALYTICAL CHEMISTS
FROM LABORATORIES SUPPORTING CUSTOMS SERVICES
13 – 17 APRIL 2015
WARSAW, POLAND**

Purpose of the course

1. The Technical Secretariat (hereinafter “the Secretariat”) of the OPCW wishes to inform Member States that it will hold a course on the development of analytical skills for analytical chemists supporting customs services. The course is scheduled to be held at the Institute of Industrial Organic Chemistry (Instytut Przemysłu Organicznego (IPO)) in Warsaw, Poland, from 13 to 17 April 2015. The aim of the course is to assist qualified analytical chemists from laboratories that support, or plan to support, customs services or offices from Member States, the economies of which are either developing or in transition, in acquiring further experience and practical knowledge of the analysis of chemicals related to the Chemical Weapons Convention (hereinafter “the Convention”). In addition, it will facilitate the adoption of good laboratory practices for the implementation of the Convention. The course will accommodate 10 participants.

Content

2. The training will include a balance of lectures and hands-on exercises. The lectures will cover general aspects of the OPCW, the Convention, and the Verification Annex to the Convention; the chemical structure and properties of scheduled chemicals; methods of separation and structure elucidation; and the detection and analysis of scheduled chemicals at various concentration levels. The role of customs-service laboratories in promoting chemical safety will also be discussed.
3. To ensure that participants gain experience in using relevant equipment, the IPO will offer them the option of choosing four exercises (from five), in which they will practise the following:
 - (a) gas chromatography-mass spectrometry (GC-MS);
 - (b) high-performance liquid chromatography with diode-array detection;
 - (c) Fourier transform infrared (FTIR) spectroscopy;

- (d) portable FTIR; and/or
 - (e) analysis of physicochemical properties of selected dangerous phosphorus, sulfur, or fluorine (PSF) chemicals.
4. Each exercise will consist of two parts: a presentation of the ways in which the technique can be used for customs purposes, and a practical analysis of selected compounds of sensitive materials.

Sponsorship

5. The cost of the course and of accommodation for all participants will be covered by the Secretariat. In addition, the Secretariat will pay for international travel, meals, and medical and travel insurance for all participants while the course is being conducted, in accordance with OPCW rules.
6. Participants are requested to obtain any necessary visas, including Schengen Area travel visas, before travelling to Poland. The Secretariat will cover the costs of these visas by reimbursing participants upon production of the original receipts. The Secretariat will also send information to the selected participants on how to apply for Schengen Area visas.

Admission requirements

7. The course is open to those who:
- (a) have a minimum of a first degree (BSc or equivalent) in chemistry or analytical chemistry from a recognised university or institution, with relevant practical and theoretical experience in analytical chemistry, including the use of GC and GC-MS;
 - (b) are citizens of Member States considered to be either developing countries or countries with economies in transition; and
 - (c) have at least three years of experience in an analytical laboratory, and currently work in a chemical laboratory providing support to customs services in their home country.
8. The application will be reviewed only after endorsement by the National Authority of the Member State (see Section 8 of the application form).
9. The course will be conducted in English. Candidates must therefore have a good command of both written and spoken English. Any candidate who, upon arrival, is found not to meet this requirement might not be allowed to continue with the course.
10. Participants will be required to sign both a set of terms and conditions for participation in the course, and a confidentiality agreement with the OPCW.

Selection procedure

11. Applications will be carefully screened on the basis of the criteria specified in paragraph 7 above. Only the most suitable applicants will be interviewed. Eligible

candidates from laboratories that have sought, or are receiving, support under the Laboratory-Assistance Programme are especially encouraged to apply.

Application procedure

12. Interested candidates are invited to fill out, in English only, the form that is annexed to this Note and to submit it to the Secretariat, via their National Authority or the Permanent Representation of their country to the OPCW. Applications must be received **no later than 20 February 2015**, and should be sent to the Secretariat at the following address: OPCW, International Cooperation and Assistance Division, Johan de Wittlaan 32, 2517 JR The Hague, the Netherlands. An advance copy of the application may be e-mailed to icb@opcw.org.
13. The application form must be accompanied by the following:
 - (a) a curriculum vitae;
 - (b) a one-page description of the candidate's practical experience; and
 - (c) a letter of recommendation from the supervisor of the candidate in his or her institution that addresses the candidate's qualifications in relation to paragraph 7 above, and attests to the relevance of the course to the work of the institution.
14. Applications that are incomplete or incorrectly filled out cannot be considered.
15. Additional information about this programme may be obtained from Ms Rufaro Kambarami, or Ms Halimatussaadiah Mat Som, International Cooperation Officer. The contact details are as follows:
