NOTE BY THE TECHNICAL SECRETARIAT**CALL FOR NOMINATIONS TO THE SCIENTIFIC ADVISORY BOARD**

1. The Technical Secretariat (hereinafter “the Secretariat”) wishes to inform States Parties that seven members of the Scientific Advisory Board (SAB) will complete their second term in 2017. These SAB members are listed in Annex 1 to this Note.
2. In the light of the above, the Secretariat invites States Parties to nominate experts, to be appointed by the Director-General after a selection process, to serve on the SAB. The terms of reference (TOR) of the SAB, which are annexed to a decision of the Conference of the States Parties at its Second Session (C-II/DEC.10/Rev.1, dated 2 December 2004), stipulate in paragraph 6 that “[t]he term of office of members of the Board shall be three years. A Board member may serve for two consecutive terms”.
3. With reference to paragraph 4 of the aforementioned TOR, nominees to be proposed should be eminent persons who serve in research institutions, universities, chemical-industry, and/or defence and military organisations, who will be selected on the basis of their expertise in one or more of the particular scientific fields relevant to the implementation of the Chemical Weapons Convention (hereinafter “the Convention”). Paragraph 4 of the SAB’s term of reference further stipulates that “[p]reference shall be given to persons who are knowledgeable about the relevant scientific and technological developments, and who are familiar with the implementation of the Convention. Efforts shall be made to maintain a balance between the areas of research, development and applications”. Nominees should be proposed on the basis of their qualifications and experience, with States Parties taking into account their publications, scientific, academic or professional activities, distinctions, and international experience.
4. When selecting candidates for nomination, States Parties should also take into consideration that multi-disciplinary scientific collaboration (“converging science”) is a driver of the rapid pace of advances in science and technology. Candidates whose area of expertise reaches across traditional disciplinary boundaries are particularly well suited to serve on the Board.
5. In the light of the expertise held by those leaving the SAB in 2017, the considerations mentioned in paragraphs 3 and 4 above, and the need for technical expert advice in future years to support implementation of the OPCW’s strategic direction and Medium-Term Plan for the Period from 2017 to 2021 (EC-83/S/1 C-21/S/1, dated 8 April 2016), States Parties may wish, this year in particular, to nominate candidates with expertise in practical applications of chemical production processes, drug

discovery and development, biotechnology, verification-relevant science and technologies¹ (including but not limited to: forensics, remote sensing and sampling, stand-off detection, and the environmental fate of toxic chemicals), molecular diagnostics, and big data/informatics.

6. Nominees should be ready to make substantive contributions at SAB meetings, during the intersessional periods, and at other relevant science-and-technology events. Each nominee is requested to submit a written statement describing how he/she intends to have a substantial impact on the work of the SAB and the OPCW.
7. The Secretariat requests States Parties to submit nominations, using the attached nomination form (Annex 2), **by 28 July 2017**. The form should be accompanied by the curriculum vitae of the nominee and by the written statement (up to 500 words) mentioned in paragraph 6 above.
