NOTE BY THE DIRECTOR-GENERAL

CALL FOR NOMINATIONS FOR A TRAINING COURSE IN CONDUCTING SAMPLING AND ANALYSIS IN A HIGHLY CONTAMINATED ENVIRONMENT CZESTOCHOWA, POLAND 29 MAY – 2 JUNE 2017

- 1. On behalf of the Government of Poland and the Organisation for the Prohibition of Chemical Weapons (OPCW), the Director-General wishes to invite Member States to nominate participants for a training course in conducting sampling and analysis in a highly contaminated environment, to be held in Czestochowa, Poland, from 29 May to 2 June 2017.
- 2. The course will be jointly organised by the Government of Poland and the Technical Secretariat (hereinafter "the Secretariat"). The main purpose of the training is to provide expert knowledge and skills to 15 specialists from Member States with the professional responsibility for sampling and analysis in highly contaminated environments in the aftermath of a chemical attack or a chemical incident.
- 3. Member States that do not yet have sampling and analysis capabilities are especially encouraged to nominate participants. Given the objectives of the course and its technical nature, applicants should have a solid technical background in chemistry and the management of hazardous chemical substances. Participants must also be qualified and experienced in using and wearing a self-contained breathing apparatus (SCBA). Previous practical experience in military or civil protection is desirable. Individual protective suits will be worn for several hours each day and participants must, therefore, be physically fit and able to wear such equipment for extended periods.
- 4. The Secretariat expects to be able to sponsor a limited number of participants from Member States. Each nomination should specify whether sponsorship is a condition of the nominee's participation. The course materials, accommodation, meals, and local transport during the course will be provided by the National Authority of Poland. Further details regarding accommodation, the course venue, and transport will be issued to all confirmed participants at a later date.

S/1477/2017 page 2

- 5. When making travel arrangements for sponsored participants, the Secretariat will seek the most economical options. In order for the Secretariat to keep costs to a minimum, sponsored participants are expected to arrive no earlier than Sunday, 28 May 2017 and to depart no later than Sunday, 4 June 2017. The Secretariat's approval is required for any changes to the arrival and departure dates of sponsored participants. The Secretariat will not cover expenses unrelated to the course or that result from unauthorised changes to travel arrangements. Sponsored participants must bear all costs resulting from changes they make, including cancellations, once the Secretariat has purchased their tickets.
- 6. Applicants are expected to be familiar with the principles of first response and chemical emergency management, and will be carefully selected in line with the objective of the course and their stated area of expertise.
- 7. The course will be conducted in English, and no interpretation services of any kind will be provided. Participants are therefore expected to have a good command of both written and spoken English.
- 8. Interested applicants are invited to register their nomination online on the OPCW website (http://www.opcw.org/events) no later than 31 March 2017. Please note that all the questions denoted with (*) need to be answered in order for the candidate to be considered for this event. Interested applicants who are unable to submit an application online due to technical problems are requested to send their applications by email attachment to EmergAssistBr@opcw.org with a reference to the name and location of the event in the subject line of the message. Endorsement by the National Authority will be a condition for acceptance. Selected applicants should expect a notification by email around 7 April 2017.
- 9. Participants are requested to obtain all necessary visas, including transit visas, before travelling to Poland. Please be aware that Schengen Area visas can take up to three weeks to obtain, so the visa request should be submitted well in advance.
- 10. The provisional programme for the course is included as the Annex to this Note; further details about the course will be issued at a later date. Any questions should be addressed to the Assistance and Protection Branch of the International Cooperation and Assistance Division. The contact persons are Mr Guy Valente, who can be reached by telephone at +31 (0)70 416 3423, and Ms Olesea Becu, who can be reached at +31 (0)70 416 3593.
